If the relevant agency believes that any material should not have been redacted under the applicable agency's standards for protection of trade secrets, confidential business information, and/or personally identifying information, such agency shall informally notify BPXP of the objection and initiate informal discussions concerning the redacted material. In the event the parties are unable to informally resolve the objection, the relevant agency may in its discretion withdraw the objection, or seek to resolve the objection pursuant to the provisions of Section XII of this Consent Decree (Dispute Resolution).

All postings stemming from Exhibit B shall remain posted until two years after the last such posting required. All postings stemming from the Administrative Agreement shall remain posted until two years after the last such posting is

XII. DISPUTE RESOLUTION

54. Exclusivity of Remedy.

a. Unless otherwise expressly provided for in this Consent Decree, the dispute resolution procedures of this Section shall be the exclusive mechanism to resolve disputes arising under this Consent Decree. BPXP's failure to seek resolution of a dispute under

this Section shall preclude it from raising any such issue as a defense to an action by the United States or the Gulf States to enforce any obligation of BPXP arising under this Consent Decree.

b. The dispute resolution procedures set forth in this Section shall not apply to disputes among the United States and Gulf States, including, but not limited to, disputes arising under Appendix 2. Such disputes shall be subject to the provisions of Appendix 2 and any Memoranda of Understanding developed pursuant to Appendix 2.

55. Informal Dispute Resolution. If any Party determines that there is a dispute subject to the Dispute Resolution provisions of this Consent Decree, that Party shall send a written notice of dispute to all other Parties outlining the nature of the dispute and requesting informal negotiations to resolve the dispute. The Parties shall endeavor to resolve the dispute through good faith negotiations, but if the Parties cannot resolve a dispute by informal negotiations, then the position advanced by the United States, after consultation with any affected Gulf State, shall be considered binding unless BPXP invokes formal dispute resolution procedures as set forth below.

56. Formal Dispute Resolution.

With respect to disputes arising under Section XIII, including the application of any defined terms for purposes of Section XIII, the burden of proof shall be in accordance with applicable principles of law.

59. No Effect on Deadlines. The invocation of dispute resolution procedures under this Section shall not, by itself, extend, postpone, or affect in any way any obligation of BPXP under this Consent Decree, unless and until final resolution of the dispute so provides.

XIII. COVENANTS NOT TO SUE AND RESERVATIONS

60. United States' Covenants to BP Entities. Subject only to the reservations of rights in Paragraphs 64 and 65, the United States covenants not to sue BPXP and/or other BP Entities for any and all civil or administrative claims arising from the *Deepwater Horizon* Incident, including but not limited to any and all such claims under (a) OPA; (b) the CWA; (c) OCSLA; (d) the Endangered Species Act § 11(a)(1), 16 U.S.C. § 1540(a)(1); (e) the Marine Mammal Protection Act, 16 U.S.C § 1361 *et seq.*; (f) the National Marine Sanctuaries Act § 306, 16 U.S.C. § 1436; (g) the Federal Oil and Gas Royalty Management Act, 30 U.S.C. § 1719(a); (h) the False Claims Act, 31 U.S.C. § 3729 *et seq.*; (i) CERCLA, 42 U.S.C. § 9601 *et seq.*; (j) the National Historic Preservation Act, 54 U.S.C. § 300101 *et seq.* and the former 16 U.S.C. § 470 *et seq.* (repealed Dec. 19, 2014); (k) the Clean Air Act, 42 U.S.C. § 7401 *et seq.*; (l) the Emergency Planning and Community Right-to-Know Act, 42 U.S.C. § 11001 *et seq.*; (m) any claims asserted by the United States in Civ. costs, resulting from the *Deepwater Horizon* Incident; and (b) costs of response or removal related to the *Deepwater Horizon* Incident.

61. Gulf States' Covenants to BP Entities. Subject only to the reservation of rights in Paragraph 64, each of the Gulf States fully, finally, and forever release and waive any and all claims against BPXP and/or the BP Entities arising from the *Deepwater Horizon* Incident and further, the Gulf States covenant not to sue BPXP and/or BP Entities for any and all civil or administrative claims arising from the *Deepwater Horizon* Incident, including but not limited to claims under any and all of the following: (a) OPA; (b) the CWA; (c) OCSLA; (d) the Endangered Species Act § 11(a)(1), 16 U.S.C. § 1540(a)(1); (e) the Marine Mammal Protection Act, 16 U.S.C. § 1361 et seq.; (f) the National Marine Sanctuaries Act § 306, 16 U.S.C. § 1436; (g) the Federal Oil and Gas Royalty Management Act, 30 U.S.C. § 1719(a); (h) the False Claims Act, 31 U.S.C. §§ 3729 et seq.; (i) CERCLA, 42 U.S.C. § 9601 et seq.; (j) the National Historic Preservation Act, 54 U.S.C. § 300101 et seq. and the former 16 U.S.C. § 470 et seq. Subject only to the reservation of rights in Paragraph 64, the Gulf States also covenant not to sue BPXP and/or BP Entities for (a) past, present or future Natural Resource Damages, whether known or unknown, including assessment costs, resulting from the

Deepwater Horizon Incident; and (b) costs of response or removal related to the *Deepwater Horizon* Incident.

62. Covenants Concerning Natural Resource Damages. The United States and Gulf States agree that the payments provided under Sections V and VII, together with the payments previously provided under the Framework Agreement, will fully resolve their claims for Natural Resource Damages, whether known or unknown, resulting from the *Deepwater Horizon* Incident.

63. Covenants Concerning Indemnified Parties. The United States and the Gulf States, including any future-designated Natural Resource Trustees, shall not assert claims against any and all Indemnified Parties to the same extent that the United States or Gulf States have covenanted not to sue BPXP and/or BP Entities in Paragraphs 60 and 61, as applicable. For all such Indemnified Parties this covenant excludes penalties, and for Anadarko this covenant also excludes royalties that the United States alleges are owed to DOI on oil from the Macondo Well that was discharged during the *Deepwater Horizon* Incident.

64. Reservations of Rights by the United States and Gulf States. Notwithstanding any other provision of this Consent Decree, the United States and the Gulf States each reserve the following claims against BPXP or any other person:

- a. Claims based on a failure to meet a requirement of the Consent Decree;
- b. Claims based on past, present, or future discharges or releases of oil or a hazardous substance outside the definition of “*Deepwater Horizon* Incident”;
- c. Claims based on any discharge or release of oil or a hazardous substance from the Macondo Well after the Date of Lodging of the Consent Decree; and

d. Claims based on any violation of federal or state law that occurs after the Date of Lodging of the Consent Decree.

65. Additional Reservations of Rights Solely by the United States. Notwithstanding any other provision of this Consent Decree, the United States reserves the following claims against BPXP or any other person:

a. Claims for response or removal costs related to the *Deepwater Horizon* Incident that are incurred on or after July 2, 2015 and have been paid by the OSLTF, provided that where oil is addressed in such a response or removal, the oil is found to be from the Macondo Well based on either: (i) a positive chemical fingerprinting test; or (ii) a preponderance of the evidence, including chemical testing and other factors, taking into consideration any evidence provided by any BP Entity that disputes liability. BPXP and the BP Entities reserve all their rights to assert any factual or legal defenses against claims asserted by the United States under this subparagraph.

b. All subrogated rights under OPA, 33 U.S.C. § 2715, with respect to any claims for damages other than Natural Resource Damages resulting from the *Deepwater Horizon* Incident that are (i) brought by parties other than the United States or any of its agencies, departments, or branches, the Gulf States or any of the Gulf States' agencies, departments, branches, or any Settling Local Entity, and (ii) are paid by the OSLTF after July 2, 2015. The BP Entities reserve all their rights to assert any factual or legal defenses against subrogated claims asserted by the United States under this subparagraph.

66. Data Sharing and Related Agreements Voided. As of the Effective Date of this Consent Decree, any and all Natural Resource Damages assessment agreements related to the

Deepwater Horizon Incident between any Trustee and BPXP, including any commitments in work plans or other formal or informal agreements, written or oral, to (i) provide data, analysis or any other material or information related to the *Deepwater Horizon* Incident natural resource damages assessment or restoration planning or (ii) to share or preserve any tangible things or information, shall be void. Each BP Entity will keep confidential and not make public information as provided under the following data sharing agreements: Sea Turtle Data Sharing Agreement; Marine Mammal Data Sharing Agreement; and the Sea Turtle Carcass Drift Study.

67. Savings Provision. Except as provided in Paragraph 66, other than the Project Stipulations entered into pursuant to the Framework Agreement, these covenants not to sue do not affect rights under any written agreement or settlement, existing as of July 2, 2015 to which any instrumentality of the United States and any of the BP Entities are both a party.

68. BP Entities' Covenants to the United States and the Gulf States. BPXP and the BP Entities each covenant not to sue the United States or any of the Gulf States for, or to maintain in any administrative proceeding, any claim or defense that any of them has asserted in MDL 2179 and any other claims asserted or that could be asserted by any of the BP Entities against the United States and/or the Gulf States arising from the *Deepwater Horizon* Incident, including, but not limited, to claims pursuant to OPA §§ 1007, 1008, 1012, 1013, or 1015(a), 33 U.S.C. §§ 2707, 2708, 2712, 2713, or 2715(a), or before the IBLA, based on transactions or occurrences prior to July 2, 2015.

69. Treatment in Federal Contracts. In their capacities as federal contractors and lessees, each BP Entity agrees not to charge the United States, such as through a “cost plus” contract, for any payments made or costs incurred in connection with U.S. Covered Matters or

State Covered Matters and the Plea Agreement. Nothing in this Paragraph shall require any BP Entity to change its ordinary accounting practice for overhead expenses in contracts that are not “cost plus” contracts.

70. Gulf States’ Covenants to the United States. Each of the Gulf States covenants not to sue or otherwise assert any claims against the OSLTF arising from the *Deepwater Horizon* Incident.

71. Attorney’s Fees and Costs. Except as otherwise ordered by the Court, no Party or BP Entity shall seek from another Party or any BP Entity any costs within the meaning of 28 U.S.C. § 1920 or attorney fees arising from MDL 2179 (including any matters transferred to MDL 2179), State Covered Matters or U.S. Covered Matters.

72. Dismissal of Appeals. Upon the Effective Date of the Consent Decree, BPXP and the United States agree to file with the U.S. Court of Appeals for the Fifth Circuit in appeal docket number 14-31374 a joint stipulation stating that they have settled their dispute regarding the CWA and accordingly that BPXP is no longer seeking Fifth Circuit review of the Court orders at issue in that appeal with respect to the United States, but will continue to seek review of those orders to the extent that those orders relate to any ongoing disputes between the BP Entities and other parties to that appeal and/or in other pending proceedings. The BP Entities also agree that in the remaining appeal they will not assert any legal arguments interpreting the standard for determining gross negligence under the CWA or OPA, provided, however, that nothing in this Paragraph shall be construed to limit the BP Entities’ ability to advance, or respond to, any legal arguments regarding the standard for gross negligence or recklessness under general maritime law.

73. Dismissal of IBLA Appeals. By no later than 15 Days after the Effective Date, BPXP shall withdraw with prejudice its appeals IBLA 2012-50, IBLA 2012-85, and IBLA 2010-0236, and the incidents of noncompliance issued by BSEE on October 12, 2011 and December 7, 2011, as described in Paragraph J, are then fully and finally resolved.

74. Instrumentalities. All references to the Gulf States in this Section XIII and Paragraph 5 shall include each and every of the five Gulf States and, respectively, all State Trustees, all branches, agencies, associations, authorities, boards, bureaus, councils, departments, educational institutions or systems, components, public benefits corporations, or other instrumentalities of any kind, administrators, elected or unelected officials, officers or delegates (other than in their individual capacities), attorneys, or other agents of any kind of each of the Gulf States, provided however that a reference to a Gulf State shall not include counties, parishes, municipalities, or any other local governmental or local political subdivisions authorized by law to perform local governmental functions.

XIV. ADDITIONAL CONDITIONS

75. Resolution of Other Gulf States Claims. This settlement, and the entry of the Consent Decree, are conditioned upon the Settlement Agreement between the Gulf States and BPXP fully and finally resolving the Gulf States' remaining claims arising from the *Deepwater Horizon* Incident being executed and effective.

76. Limitation on Naming Trustees.

a. The Trustees designated by the United States and each of the Gulf States with respect to the *Deepwater Horizon* Incident are set forth in Appendix 1. No Gulf State shall

designate any new Trustee for the purpose of asserting a claim for Natural Resource Damages resulting from the *Deepwater Horizon* Incident.

b. The Trustees will negotiate a revised Memorandum of Understanding among them which will, among other things, reflect USDA and EPA membership in the Trustee Council.

77. Final Judgment. Upon approval and entry of this Consent Decree by the Court, this Consent Decree shall constitute a final judgment of the Court as to the United States, each of the Gulf States, BPXP, BPCNA, and BP p.l.c. The Court finds that there is no just reason for delay and therefore the Court enters this Consent Decree as a final judgment under Federal Rules of Civil Procedure 54(b) and 58.

78. Integration. Except as expressly provided in Paragraph 75, this Consent Decree constitutes the final, complete, and exclusive agreement and understanding among the Parties with respect to the settlement embodied in this Consent Decree and supersedes all prior agreements and understandings, whether oral or written, concerning the settlement embodied herein. No other document, or any representation, inducement, agreement, understanding, or promise, shall constitute any part of this Consent Decree or the settlement it represents.

79. No Admissions.

a. Except as expressly provided in this Consent Decree, nothing in this Consent Decree shall constitute an admission of any fact or law by any Party except for the purpose of enforcing the terms or conditions set forth herein.

b. The Parties agree that Appendix 2 and the PDARP, and any amendments or modifications thereto, shall not constitute an admission of fact or law by BPXP or any BP

Entity. BPXP and the BP Entities reserve their right to object to any statements, data, findings, methods, or calculations in the PDARP or future restoration plans related to the *Deepwater Horizon* Incident, in any proceeding, forum, or matter other than a proceeding to challenge the legal sufficiency or validity of the Consent Decree or the PDARP or any such future plan.

XV. PUBLIC PARTICIPATION

80. Public Comment Procedure. This Consent Decree will be lodged with the Court to allow for a period of not less than 60 Days for public notice and comment using the procedures of 28 C.F.R. § 50.7, 42 U.S.C. § 6973(d), La. R.S. 30:2050.7, and Texas Water Code § 7.110.

81. The United States' and Gulf States' Right to Withdraw Consent. At any time prior to the Effective Date, the United States and each Gulf State may withdraw or withhold consent to the proposed Consent Decree if comments received during the public comment procedure disclose facts or considerations indicating that the proposed Consent Decree or any of its terms is inappropriate, improper, or inadequate.

82. Effect of Withdrawal by the United States or One of the Gulf States. If the United States or any Gulf State withdraws from the proposed Consent Decree, the proposed Consent Decree shall become null and void as to all other Parties.

83. Consent to Entry. BPXP, BPCNA, and BP p.l.c. each consent to entry of the proposed Consent Decree without further notice and agree not to withdraw from or oppose entry of the proposed Consent Decree by the Court or to challenge any provision of the proposed Consent Decree, unless the United States or one of the Gulf States withdraws from the proposed Consent Decree pursuant to Paragraph 81.

XVI. LIMITS AND EFFECTIVE DATE OF CONSENT DECREE

84. Requirement to Comply with Other Law. Nothing in this Decree excuses BPXP from securing any applicable permits or complying with applicable law.

85. Effective Date of Consent Decree. This Consent Decree takes effect upon the Effective Date.

86. Payment Dates. If any payment date provided herein falls on a Saturday, Sunday, or federal holiday, the payment obligation shall extend until the close of business of the next business day.

XVII. MODIFICATION

87. Modification of Consent Decree. The terms of this Consent Decree, including any Appendix other than Appendix 2, may be modified only by a subsequent written agreement signed by all the Parties. Where any such modification constitutes a material change to this Consent Decree, it shall be effective only upon approval by the Court.

88. BP Entities' Consent to Modifications of Appendix 2. The Trustees will provide a period for public comment on the proposed PDARP consistent with OPA regulatory requirements, including 15 C.F.R. § 990.23, and other legal requirements. Revisions to the proposed PDARP that the Trustees, in their discretion, decide to make in response to public comments may require the United States and the Gulf States to make conforming modifications to Appendix 2 to this Consent Decree. The BP Entities consent to modifications to Appendix 2 without further notice.

XVIII. TERMINATION

89. Request for Termination. BPXP may serve upon the United States and each of the Gulf States a request for termination, after BPXP has completed the requirements of Sections IV, V, VI, VII, VIII, IX, X, and XI (including all payments required by those Sections).

90. Motion for Termination. Following receipt by the United States and each of the Gulf States of BPXP's request for termination, the Parties shall confer informally concerning the request and any disagreement that the Parties may have as to whether BPXP has complied with the requirements for termination of this Consent Decree. If the United States, after consultation with the Gulf States, agrees that the Consent Decree may be terminated, the United States and BPXP shall submit, for the Court's approval, a joint stipulation terminating the Consent Decree.

91. Effect of Termination. Any termination of this Consent Decree shall not modify or diminish the Covenants Not to Sue and Reservations set forth in Section XIII, and any related definitions, all of which shall survive any termination of this Consent Decree. Appendix 2 of this Consent Decree also shall survive the termination of this Consent Decree and become a separate, freestanding agreement among the Trustees after such termination.

Appendix 2: Agreement Among the United States and the Gulf States Relating to Natural Resource Restoration

Restoration to be performed through this Appendix 2 addresses the following **Restoration Goals**, which also were identified in the Gulf Coast Ecosystem Restoration Task Force Strategy (December 2011): Restore and Conserve Habitat; Restore Water Quality; Replenish and Protect Living Coastal and Marine Resources; Enhance Community Resiliency (Provide and Enhance Recreational Opportunities); and Provide for Monitoring, Research, and Adaptive Management. The restoration work and terms specified in this Appendix 2 are in conjunction with a Programmatic Restoration Plan that will be adopted by the Trustees prior to entry of this Consent Decree.

SECTION 1: MONEY AVAILABLE FOR RESTORATION PROJECTS

Monies available for restoration consist of all payments by BPXP to the Trustees for natural resource damages (hereafter, “**NRD Monies**”). **NRD Monies** include NRD payments by BPXP required by Paragraphs 15, 16, and 21 and the \$1 billion made available by BPXP under the Framework Agreement, the unspent portion of which is paid to the Trustees pursuant to Paragraph 17.

SECTION 2: ALLOCATION OF NRD MONIES TO RESTORATION AREAS AND TYPES OF RESTORATION ACTIVITIES

The restoration work addressed by this Appendix 2 will be performed by the Trustees, acting through the Trustee Council, using best available science. The Trustees will use **NRD Monies** for their restoration activities. The restoration work to be done by the Trustees shall be consistent with a Programmatic Restoration Plan adopted by the Trustees. The Programmatic Restoration Plan shall set forth, among other things, how the proposed restoration will address the injuries to natural resources caused by the *Deepwater Horizon* Incident.

- 2.1. **NRD Monies** received from BPXP shall be allocated among the following **Restoration Areas**:
 - 2.1.1. “**Open Ocean**” consists of restoration activities for resources primarily in the ocean and Federal Trustee administrative and preliminary planning activities across **Restoration Areas**.
 - 2.1.2. “**Region-wide**” consists of categories of restoration projects that will benefit resources across the Gulf. It also contains funding for Gulf-wide needs such as monitoring, research, oversight, and planning.

- 2.1.3. “**Restoration in Alabama**” consists of restoration activities to benefit resources within the geographic jurisdiction of the State of Alabama.
- 2.1.4. “**Restoration in Florida**” consists of restoration activities to benefit resources within the geographic jurisdiction of the State of Florida.
- 2.1.5. “**Restoration in Louisiana**” consists of restoration activities to benefit resources within the geographic jurisdiction of the State of Louisiana.
- 2.1.6. “**Restoration in Mississippi**” consists of restoration activities to benefit resources within the geographic jurisdiction of the State of Mississippi.
- 2.1.7. “**Restoration in Texas**” consists of restoration activities to benefit resources within the geographic jurisdiction of the State of Texas.
- 2.1.8. “**Adaptive Management & Unknown Conditions Restoration**” consists of restoration activities funded by BPXP’s additional payments for unknown conditions and adaptive management that are in addition to the \$7.1 billion on the NRD payment schedule.

2.2. For each **Restoration Area**, the **Restoration Area Amount** shall be the amount of **NRD Monies** to be made available to that **Restoration Area**. The **Restoration Area Amounts** for each **Restoration Area** are:

<u>Restoration Area</u>	<u>Restoration Area Amounts</u>
Region-Wide	\$ 349,851,678
Open Ocean	\$1,240,697,916
Restoration in Alabama	\$ 295,589,305
Restoration in Florida	\$ 680,152,643
Restoration in Louisiana	\$5,000,000,000
Restoration in Mississippi	\$ 295,557,000
Restoration in Texas	\$ 238,151,458
Adaptive Mgmt. & Unknown Conditions Restoration	up to \$ 700,000,000
TOTAL:	\$8,800,000,000

2.3. Distribution of NRD Payments.

- 2.3.1. Early Restoration Payments. Early Restoration Framework Agreement monies paid by BPXP after entry of the Consent Decree pursuant to Paragraph 17 will be distributed to NRDAR sub-accounts for the Restoration Areas as follows:

2.3.1.1. Agreed-upon projects. For early restoration projects previously approved in a stipulation or a term sheet, funding for those projects will be distributed to the Restoration Area to which the project pertains. A listing of previously approved early restoration projects for each Restoration Area is in Table 2.

2.3.1.2. The remaining early restoration NRD Monies that BPXP must pay within 30 days of the Effective Date will be distributed so that the total early restoration funding distributed to each **Restoration Area** equals the **Total Early Restoration Distribution** shown in the following table:

Restoration Area	Total Early Restoration Distribution
Region-wide	\$34,079,283
Open Ocean	\$76,700,409
Restoration in Alabama	\$129,027,405
Restoration in Florida	\$149,878,130
Restoration in Louisiana	\$371,437,300
Restoration in Mississippi	\$131,000,000
Restoration in Texas	\$107,877,473
Adaptive Mgmt. & Unknown Conditions Restoration	\$0
TOTAL:	\$1,000,000,000

2.3.1.3. The accrued interest paid by BPXP pursuant to Paragraph 17 will be distributed to the NRDAR sub-account for the Region-wide **Restoration Area**.

2.3.2. Distribution of the NRD payments on NRD Payment schedule in Paragraph 16. Beginning one year after entry of the Consent Decree, BPXP will make a series of payments pursuant to Paragraph 16 for NRD totaling \$7.1 billion (not including interest and an additional payment for unknown conditions and adaptive management). Those payments will be distributed each year to NRDAR sub-accounts for each of the seven Restoration Areas in the amounts shown on Appendix 2 Table 3. Within each **Restoration Area**, the distributed funds will be allocated proportionate to the **Restoration Type** amounts in Table 1, taking into account early restoration project allocations. The **Trustee Implementation Group** for each **Restoration Area** may agree on a different allocation of funds to the **Restoration Types**, consistent with fully funding all of the **Restoration Type** allocations over the life of the payment schedule.

2.3.3. Distribution of Payments for Unknown Conditions and Adaptive Management. NRD payments received pursuant to Paragraph 21 will be distributed to the

Adaptive Management & Unknown Conditions Restoration NRDAR sub-account.

- 2.4. The chart attached as Table 1 specifies the **Restoration Types** on which the Trustees shall expend **NRD Monies** from each **Restoration Area**, subject to the process for revisions in Section 3.6.
- 2.5. The rows in Table 1 identify **Restoration Types** organized by **Restoration Goals**.
- 2.6. For each **Restoration Type**, Table 1 identifies the amount of **NRD Monies** to be spent on restoration projects of that **Restoration Type** for each **Restoration Area**, subject to the process for revisions in Section 3.6.
- 2.7. **NRD Monies** in each **Restoration Area** not dedicated to a particular **Restoration Type** in Table 1 will be spent on restoration projects as determined by the **Trustee Implementation Group** (defined in Section 3 below) for that **Restoration Area**. It is anticipated that adaptive management will be used to implement restoration projects, and NRD Monies dedicated to any Restoration Type also may be used for that purpose.

SECTION 3: TRUSTEE DECISION-MAKING

- 3.1. A **Trustee Implementation Group** will administer **NRD Monies** for each **Restoration Area**. Each **Trustee Implementation Group** shall develop, select, and implement restoration projects using **NRD Monies** available for its **Restoration Area**.
- 3.2. The **Trustee Implementation Groups** shall be constituted for each **Restoration Area** as follows:
 - 3.2.1. **Restoration in Alabama:** the Federal Trustees and the natural resource Trustees for the State of Alabama.
 - 3.2.2. **Restoration in Florida:** the Federal Trustees and the natural resource Trustees for the State of Florida.
 - 3.2.3. **Restoration in Louisiana:** the Federal Trustees and the natural resource Trustees for the State of Louisiana.
 - 3.2.4. **Restoration in Mississippi:** the Federal Trustees and the natural resource Trustee for the State of Mississippi.
 - 3.2.5. **Restoration in Texas:** the Federal Trustees and the natural resource Trustees for the State of Texas.

- 3.2.6. **Region-wide:** all State and Federal Trustees.
 - 3.2.7. **Open Ocean:** the Federal Trustees.
 - 3.2.8. **Adaptive Management & Unknown Conditions Restoration:** all State and Federal Trustees.
- 3.3. Developing, selecting, and implementing projects. Each **Trustee Implementation Group** shall develop procedures for developing projects, in accordance with the OPA regulations and other applicable requirements.
- 3.3.1. Each **Trustee Implementation Group** shall develop, select, and implement projects on a consensus basis. For the five **Trustee Implementation Groups** for each of the five Gulf States, consensus requires that a proposed restoration action be supported by both the United States (as decided by the federal Trustees as a group) and the State (as decided by the State trustees as a group). The Federal Trustees will develop a Memorandum of Understanding (MOU) setting forth an approach and procedures pursuant to which the Federal Trustees will speak with a single voice on decisions made by the five **Trustee Implementation Groups** for each of the five Gulf States; the State Trustees for each State will develop a Memorandum of Understanding (MOU) setting forth an approach and procedures pursuant to which the State Trustees will speak with a single voice on decisions made by the five **Trustee Implementation Groups** for each of the five Gulf States. For the full Trustee Council and the **Trustee Implementation Groups** for the Region-wide and Adaptive Management and Unknown Conditions **Restoration Areas**, consensus requires that a proposed restoration action be supported by all non-abstaining Federal Trustees and all non-abstaining Gulf States (as decided for each Gulf State by the State trustees as a group). For the Open Ocean **Restoration Area**, consensus requires that a proposed restoration action be supported by all non-abstaining Federal Trustees.
 - 3.3.2. The process of developing, selecting, and implementing restoration projects will require **Trustee Implementation Groups** to regularly develop, propose, and decide upon restoration plans, pursuant to the applicable OPA regulations. Those regulations require an opportunity for public review and comment on proposed restoration plans. Many restoration plans for specific projects will not require modifications to the Programmatic Restoration Plan; however, some restoration decisions may require modifications to the Programmatic Restoration Plan.
- 3.4. At any point in the development, selection, or implementation of a restoration project, the applicable **Trustee Implementation Group** may designate a lead implementing

Trustee for that project. As appropriate, different Trustees may be designated as lead for different portions of a project. All decision-making will be as set forth in Paragraphs 3.1, 3.2, and 3.3.

- 3.5. Project Modification and Replacement. If construction or implementation is terminated on a project selected by a **Trustee Implementation Group**, the funds that would have been spent on that project remain dedicated to the same **Restoration Type** within the same **Restoration Area**. The applicable **Trustee Implementation Group** must then select another project(s). With regard to approved early restoration projects, decisions regarding project modifications, selection and implementation of any replacement project(s), and the use of any unexpended early restoration project funds shall be made by the appropriate **Trustee Implementation Group** for that project.
- 3.6. Changes to the amount of funding to be spent on a **Restoration Type** within a **Restoration Area** may be made after the **Trustee Implementation Group** proposes a revised restoration plan, which is subject to public review and comment pursuant to the OPA regulations, but only with the consensus (as defined in Section 3.3.1) of the Trustees in the **Trustee Implementation Group** for that **Restoration Area**. Any such changes will follow the applicable OPA requirements for changes to a restoration plan. In addition, any modifications to shift funding designated for one **Restoration Goal** to another **Restoration Goal** may be made only with the consensus (as defined in Section 3.3.1) of the Trustees in the **Trustee Implementation Group(s)** affected, and only with court approval, through a motion to the court setting forth the basis for the requested change.
- 3.7. Should there be an unresolved dispute about a substantial matter in one of the five Trustee Implementation Groups for the Gulf States, a trustee in that group may seek guidance from the full Trustee Council through a non-binding, non-voting Executive Session discussion.
- 3.8. Changes of less than \$50,000 to the amount of funding to be spent on a **Restoration Type** within a **Restoration Area** are not changes to the restoration plan and do not require either (1) public review and comment or (2) court approval before the change is put into effect. Public notice of such a change is required.
- 3.9. The Trustees shall revise their Memorandum of Understanding for operation of the Trustee Council in accordance with this Consent Decree.

SECTION 4: GENERAL PROVISIONS

- 4.1. Standard Operating Procedures. The Trustee Council will develop standard operating procedures (SOP) for the long-term management, implementation, and administration

of settlement funds. The SOP will include, but not be limited to: a) Trustee Council structure and management; b) decision-making and delegation of authority; c) funding; d) administrative procedures; e) project reporting; f) conflict resolution; g) consultation opportunities among the Trustees; and h) administrative accounting, and independent auditing systems for use by each Trustee Implementation Group. The independent financial audits shall be conducted on a regular basis with respect to funds disbursed to each Trustee Implementation Group as specified in the SOP, and shall include, but shall not be limited to, review of accounting policies and procedures for holding and tracking disbursed funds and review of actual expenditures disbursed for restoration activities. The results of these independent audits shall be made available to the public. In selecting and implementing projects, including the administration of **NRD Monies**, each **Trustee Implementation Group** will conform to the Standard Operating Procedures set by the Trustee Council.

4.2. Administration of Restoration Funds.

4.2.1. **NRD Monies** paid pursuant to this Consent Decree shall be deposited into a Natural Resource Damage Assessment and Restoration (NRDAR) account, managed by the Department of the Interior (DOI) for the Deepwater Horizon Oil Spill. Sub-accounts for each **Restoration Area** shall be created to fund the work in that **Restoration Area**. Disbursements from an account shall be made upon application by all Trustees in the appropriate **Trustee Implementation Group** to the appropriate NRDAR account or sub-account.

4.2.2. Each **Trustee Implementation Group** shall implement the administrative and accounting systems for funds disbursed from the applicable NRDAR account or sub-account.

4.3. No BP role. BP Entities had no role in the negotiation of Appendix 2, including Tables 1-3. BP Entities shall have no role in deciding how restoration monies are spent or in other decisions concerning restoration. BP Entities shall not challenge or object to any actions or analyses conducted by the Trustees, or on behalf of the Trustees, relating to developing, selecting, or implementing restoration work.

- A. Nature of Employment. The EPA Independent Auditor serves to provide an independent verification of the applicable BP Covered Entities' compliance with this Agreement. The EPA Independent Auditor shall not be an agent of the BP Group Entities, and his or her work shall not be subject to the BP Group Entities' assertion of the attorney-client or work product privilege doctrines. The EPA Independent Auditor shall be an independent party who is appropriately certified, licensed or otherwise adequately qualified, and who has had no previous business relationship with BP Covered Entities in the five (5) years prior to the Effective Date of this Agreement that would create an actual or perceived conflict of interest in monitoring the applicable BP Covered Entities' compliance with this Agreement. Notwithstanding the foregoing, the Third-Party Auditor, Process Safety Monitor, and Ethics Monitor appointed by DOJ under the Remedial Order may be eligible to be considered as an EPA Independent Auditor candidate under this Agreement.

- B. Annual Certification of Independence. Upon nomination, and upon each anniversary of the Effective Date of this Agreement, BPA shall furnish EPA with an affidavit from the EPA Independent Auditor certifying that he or she has no financial, professional, personal, familial or other interest that would create an actual or apparent conflict of interest with the BP Covered Entities or the BP Covered Entities' Employees, other than that arising from the appointment as the EPA Independent Auditor or as the Third-Party Auditor under the Remedial Order. The affidavit must also certify that his or her representation of any other client will not create an actual or apparent conflict of interest in fulfilling his or her responsibilities as EPA Independent Auditor.

- C. Confidentiality. The EPA Independent Auditor shall maintain as confidential all non-public information, documents and records it receives from BP Covered Entities, subject to the EPA Independent Auditor's reporting requirements herein and paragraph 8 of Section XII (General Provisions). The EPA Independent Auditor shall take appropriate steps to ensure that any of his or her consultants or employees shall also maintain the confidentiality of all such non-public information.

3. SCOPE OF INDEPENDENT AUDITOR'S COMPLIANCE DUTIES

- A. Particular Duties. The EPA Independent Auditor shall:
 - 1. Conduct an annual review of applicable BP Covered Entities' compliance with Sections V through XII of this Agreement and draft a report summarizing each such review.

2. Receive and review the reports and other information required to be provided to the EPA Independent Auditor under Section VI of this Agreement.
3. Review BPA's annual compliance certification with this Agreement and Annual Reports.
4. Submit its findings in an annual written report to the BP Authorized Representative(s), the Ethics Monitor, the Process Safety Monitor (for informational purposes) and the EPA Authorized Representative(s) within ninety (90) days after each anniversary of the Effective Date of this Agreement. The final annual report shall be submitted to the BP Authorized Representative(s), the Ethics Monitor and the EPA Authorized Representative(s) no earlier than sixty (60), and no later than thirty (30), days prior to the termination of the Agreement.
5. If the EPA Independent Auditor identifies a potential violation of law or regulation as an incidental consequence of auditing compliance with this Agreement, and if the EPA Independent Auditor deems it appropriate, the EPA Independent Auditor shall inform the relevant BP Covered Entity and/or the EPA Authorized Representative(s).
6. If either (a) BPA's certification or report identifies a deficiency in compliance, or (b) the EPA Independent Auditor identifies a deficiency in compliance, the EPA Independent Auditor shall so report to the EPA Authorized Representative(s) and the BP Authorized Representative(s), and the relevant BP Covered Entity shall develop a timely and appropriate corrective action plan for the identified non-compliance, the implementation of which the EPA Independent Auditor shall review as part of its compliance assessment.

B. Scope of Annual Compliance Assessment. The EPA Independent Auditor shall verify the applicable BP Covered Entities' compliance with Sections V through XII of this Agreement as follows:

1. It is the expectation of the parties that the EPA Independent Auditor's annual compliance review can be completed based on: (a) the BP Covered Entities' Annual Reports under this Agreement, and supporting documentation as outlined in Section X (BP Covered Entities' Annual Reports); (b) BP Covered Entities' annual certifications; (c) reports and records provided by the Ethics Monitor and the Process Safety Monitor; (d) interviews with the Ethics Monitor and Process Safety Monitor; and (e) District Court findings with respect to the Plea Agreement or the SEC Judgment Order. In the event that the EPA Independent Auditor determines that it is unable to verify compliance on that basis, the EPA Independent Auditor shall be provided the same access to records,

documents and other information as the EPA Authorized Representative(s) as set forth in paragraph 8 of Section XII (General Provisions) of this Agreement, subject to the specific provisions and limitations in subparagraphs 2 through 5, below.

2. With respect to Section V (Compliance With Other Agreements), Section VI (Coordination with Plea Agreement Monitors) and paragraphs 6C and 6D of Section IX (Process Safety) of this Agreement, and the status of any recommendations of the Ethics Monitor or Process Safety Monitor, the EPA Independent Auditor's annual compliance reviews shall be completed based on the BP Covered Entities' annual reports under this Agreement, any reports or other submissions under the Remedial Order of the Ethics Monitor or Process Safety Monitor, interviews with the Process Safety Monitor or Ethics Monitor as the EPA Independent Auditor deems appropriate and any findings of the U.S. District Court with respect to BPXP's probation and the SEC Judgment Order.
3. With respect to Section VIII (Corporate Governance) of this Agreement, requests by the EPA Independent Auditor for additional information from the relevant BP Covered Entities' Boards shall be directed to and completed by the BP Authorized Representative(s) by providing further documentation of compliance to the EPA Independent Auditor.
4. With respect to the Ethics & Compliance training in paragraph 8 of Section VII (Ethics & Compliance) of this Agreement, the EPA Independent Auditor's first annual compliance review shall address BPXP; the second annual compliance review shall address Group US Businesses; and annual compliance reviews thereafter shall address BP Covered Entities.
5. As set forth in paragraph 8 of Section XII (General Provisions) of this Agreement, EPA may at its discretion conduct audits of the applicable BP Covered Entities' compliance with the terms of this Agreement. EPA may elect to have the EPA Independent Auditor accompany and assist EPA on the audit at the BP Covered Entities' expense. The EPA Independent Auditor, at EPA's election, may conduct audit activities set forth in paragraph 8 of Section XII (General Provisions) of this Agreement, including but not limited to: interviewing the applicable BP Covered Entities' Employees; reviewing the applicable BP Covered Entities' files or other records required pursuant to this Agreement; touring the applicable BP Covered Entities' facilities; developing documents to prepare for the interview; and drafting the Audit Report.

XII. GENERAL PROVISIONS

1. **LANGUAGES.** All communications to Group US Employees, including but not limited to written materials, oral communication and training required under this Agreement, will be provided in English or, if the Group US Employee has a limited ability to read, write, speak or understand English, in another language in which the Group US Employee is sufficiently fluent so that each Employee can understand the communication.

2. **NOTICE TO EMPLOYEES AND SENIOR LEVEL LEADERS.** BPA will notify Group US Employees, and BP p.l.c. will notify Employees of BP Affiliates with Foreign Business, within sixty (60) days of the Effective Date of this Agreement, of: the fact and substance of this Agreement; the facts related to the Plea Agreement; and the importance of each such Employee abiding by the terms and conditions of this Agreement and the Code of Conduct. BPA may provide the required notification to Group US Employees by posting the Agreement on BP p.l.c.'s intranet site and sending an email or other similar communication to Employees notifying them of such posting. BP p.l.c. shall supplement the intranet posting in another appropriate manner for Employees of BP Affiliates with Foreign Business, such as email communication, town hall meetings, targeted posting of notices or new Employee training.

3. **CORPORATE OFFICIAL'S CERTIFICATION.** As part of the Annual Reports required by Section X (BP Covered Entities' Annual Reports) of this Agreement, the BP p.l.c. GE&CO and/or the relevant Corporate Secretary of each Respondent shall certify that applicable Respondent is in compliance with its respective obligations under paragraphs 1, 3 and 4 of Section VIII (Corporate Governance) of this Agreement. The certification shall state:

I certify under penalty of law that, [except as set forth below], based on my reasonable inquiry of the persons within the applicable Respondent who manage the applicable Respondent's obligations under the Administrative Agreement and of my review of information generated during the course of the applicable Respondent's performance under this Agreement, to the best of my knowledge, the applicable Respondent is in compliance with its respective obligations under Paragraphs 1, 3, and 4 of the Administrative Agreement.

If the Respondent's designated officer cannot so certify with respect to any particular obligation, term or condition, the certification shall identify the deficiency and the corrective measures being taken or to be taken to achieve compliance.

The BP Covered Entities agree that nothing in this paragraph shall limit the EPA SDO's ability to take an action pursuant to paragraph 19 of Section XII (General Provisions) of this Agreement (Breach of Agreement/Survival of Cause for Debarment).

4. **TRUTHFULNESS IN REPORTING AND CONVEYING INFORMATION TO EPA AND OTHER REGULATORY AGENCIES.** The BP Covered Entities shall comply with their obligations under federal law or regulation to provide accurate information to EPA or its designees and to other Federal Government Entities, including the Department of the Interior. Within sixty (60) days of the Effective Date of this Agreement, BP Covered Entities shall

provide written notification to the BP Covered Entities' Principals of the commitment to cooperate fully with all requests for information and inquiries from the EPA SDO, the EPA Suspension and Debarment Division, the Ethics Monitor and the EPA Independent Auditor made pursuant to this Agreement.

5. REPORTS OF LEGAL PROCEEDINGS. Except as set forth in Attachment 30, and with the exception of the ongoing civil litigation, administrative proceedings and investigation involving the *Deepwater Horizon* blowout, explosion and spill, BP Covered Entities represent that, to the best of their knowledge, no BP Covered Entities: (a) have been informed that they are currently the target or subject of an ongoing U.S. federal criminal investigation; or (b) are currently named in an action of the kind set forth in paragraphs (A) through (D), below.

Beginning on July 1, 2014, Respondents shall notify the EPA Authorized Representative(s) on or before the beginning of each calendar quarter of any of the following matters:

- A. The initiation of any criminal investigation or civil enforcement action by any Federal Government Entity involving allegations of any violation(s) of federal environmental laws, the Foreign Corrupt Practices Act, false statements, false claims, kickbacks, conflict of interest or antitrust laws, if Respondents have been informed that they or any BP Covered Entity or Principal of a BP Covered Entity is a target or subject of such investigation. In the case of a Principal, such allegations must be related to duties performed by the Principal in the course of employment. For the purposes of this paragraph, "initiation" in a criminal investigation shall mean the issuance of a subpoena, the execution of a search warrant, or the filing of formal charges; "initiation" in a civil enforcement action shall mean the filing of a judicial or administrative complaint (but not the issuance of a notice of violation or incident of noncompliance), the service of administrative subpoenas (but not information requests or inspections) or the issuance of show cause orders.
- B. Initiation of qui tam actions or citizen action suits against a BP Covered Entity or any of their Principals by any person or entity alleging: violations of any U.S. federal environmental laws or the Foreign Corrupt Practices Act; false statements to Federal Government authorities or in public filings, including filings required by U.S. securities laws; false claims for government reimbursement, kickbacks, conflict of interest; or anti-trust violations. For purposes of this paragraph, the term "citizen action suit" shall mean a private enforcement action expressly authorized by a U.S. statute.
- C. Criminal charges or suspension or debarment actions brought by any Federal Government Entity against a BP Covered Entity or any of their Principals in a matter relating to the business of the BP Covered Entity.
- D. Any conviction or guilty plea, *nolo contendere* plea, deferred prosecution agreement, pre-trial diversion agreement, civil judgment or civil judicial consent

decree in a matter brought by a Federal Government Entity to which any BP Covered Entities are parties in a matter relating to the business of the BP Covered Entity.

- E. Nothing in this paragraph shall be interpreted to require any BP Covered Entity to disclose information that is subject to the attorney-client privilege, work product doctrine or other applicable legal privilege.

6. ELECTRONIC TRACKING OF FORMAL ENFORCEMENT ACTIONS. BPA shall develop, implement and maintain a database or computerized system for tracking those matters identified in paragraph 5 of Section XII (General Provisions) of this Agreement.

7. REPORTS OF MISCONDUCT. During the term of this Agreement, BP Covered Entities shall timely disclose in writing to the EPA Authorized Representative(s), the Ethics Monitor and the EPA Independent Auditor whenever, in connection with the award, performance or closeout of a federal procurement or nonprocurement covered transaction, any BP Covered Entity or Principal of a BP Covered Entity has credible evidence that BP Covered Entity's Employee has committed: (a) a violation of Federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in Title 18 of the U.S. Code; or (b) a violation of the civil False Claims Act, 31 U.S.C. §§ 3729-3733.

BP Covered Entities will investigate all credible reports of such misconduct that come to their attention and will notify the EPA Authorized Representative(s), the Ethics Monitor and the EPA Independent Auditor of the outcome of such investigations and any potential or actual impact on any aspect of BP Covered Entities business with a Federal Government Entity. The BP Covered Entity will take corrective action, including prompt restitution when established by a court or a tribunal with competent jurisdiction or agreed upon between the parties, of any harm to the Federal Government. BP Covered Entities will include summary reports of the status of each such investigation to the EPA Authorized Representative(s) in the reports submitted pursuant to this Agreement until each matter is finally resolved. This requirement does not in any way waive BP Covered Entities' obligations to submit reports pursuant to any other section in this Agreement or to the requirements of Federal Acquisition Regulation ("FAR") 9.406-2 (b)(1)(vi) and 9.407-2 (a)(8), if applicable, or any other statutory or regulatory reporting requirement.

Nothing in this paragraph shall be interpreted to require BP Covered Entities to disclose information that is subject to the attorney-client privilege, work product doctrine or other applicable legal privilege.

8. GOVERNMENT AUDITS AND ACCESS TO RECORDS AND INFORMATION. In addition to any other right the Federal Government may have by statute, regulation or contract, the EPA Authorized Representative(s) may, for the purpose of verifying BP Covered Entities' compliance with the terms and conditions of this Agreement, evaluate each of BP Covered Entities' books, records and other company documents and supporting materials (collectively, "BP Covered Entities' Records") including:

- A. BP Covered Entities' business conduct in its dealings with all of its customers, including the Federal Government;
- B. BP Covered Entities' compliance with federal laws, regulations and procurement policies; and
- C. BP Covered Entities' compliance with the requirements of Federal Government contracts, leases, covered transactions or subcontracts,

The materials described above, except to the extent that such documents are subject to attorney-client privilege, work product or other applicable legal privilege, shall be made available by BP Covered Entities at all reasonable times for inspection or audit. The EPA Authorized Representative(s) may evaluate reports, records or other documents of the EPA Independent Auditor, the Ethics Monitor, the Process Safety Monitor and the Third-Party Auditor. Further, if EPA determines that an annual report of the EPA Independent Auditor is not sufficient for the purposes of evaluating the BP Covered Entities' compliance with this Agreement and, after notice and consultation, the BP Covered Entities are unable to resolve the concern, EPA may enlist the EPA Independent Auditor in further audit activities under this provision. For purposes of this provision, the EPA Authorized Representative(s), the Ethics Monitor or the EPA Independent Auditor may interview any Group US Employee at the Employee's place of business during normal business hours, or at such other place and time as may be mutually agreed between the Employee and the EPA Authorized Representative(s), the Ethics Monitor or the EPA Independent Auditor. Group US Employees may be interviewed without a representative of the BP Group Entities' Employees or Principals being present. The Group US Employee may be represented personally by his or her own counsel or other representative, if requested by the Employee. The Employee also may decline to be interviewed.

Respondents agree to pay to the U.S. Treasury as miscellaneous receipts the reasonable costs actually incurred by EPA personnel or its authorized agents for conducting such records examinations during the term of this Agreement. The parties agree that "cost" shall include reasonable expenses for travel, transportation, lodging and meals, to the extent normally authorized under federal rules governing Federal Government travel, as such expenses are actually incurred by EPA personnel or its authorized agents in conducting site visits for the purpose of verifying compliance with this Agreement. No part of the payments for costs in accordance with this provision shall be an allowable cost under any EPA or Federal Government contract, subcontract or nonprocurement covered transaction.

As an alternative to an onsite audit of BP Covered Entities' compliance with the terms and conditions of this Agreement, EPA may, at its sole election, conduct an audit by mail in which instance BP Covered Entities shall provide documentation of their compliance with this Agreement, including but not limited to copies of documentation maintained as required in this Agreement and such additional documentation and/or certifications as may be requested by EPA.

9. SALE OF THE RESPONDENTS' BUSINESSES. The sale, assignment, or transfer of ownership of BP Covered Entities' business or any divisions, subsidiaries, Affiliates, business units, facilities, offices or other corporate components (collectively "assets") shall not be

executed as an artifice to avoid being subject to the Agreement. However, this Agreement is not intended to restrict the lawful and legitimate sale, assignment, or transfer of ownership of assets through an arm's length transaction and would not bind an asset purchaser who purchases through an arm's length transaction.

With respect to the sale, assignment or transfer of more than fifty percent (50%) of a Respondent's assets to an unaffiliated entity pursuant to an arm's length transaction, including but not limited to the transfer of operational control of a jointly owned asset to an unaffiliated third party, such third party shall not be liable for the BP Covered Entities' obligations and the BP Covered Entity shall remain obligated to comply with the terms and conditions of this Agreement with respect to all non-disposed assets but not with respect to the sold, assigned or transferred assets or assets for which operational control has been transferred. The Respondent shall send notification to the EPA Authorized Representative(s) and the EPA Independent Auditor no less than thirty (30) days after the date of sale. The notification shall be signed and dated, and shall state in writing: the date of the sale; the name(s), address(es) and contact person(s) representing the purchaser(s) on the sale; a specific description of subject business or property being sold; and certify in writing whether said sale is an arm's length transaction.

In the event that any Respondent sells or in any way transfers ownership of any BP Covered Entity in its entirety to a third party, the BP Covered Entity shall send notification to the EPA Authorized Representative(s) and the EPA Independent Auditor no less than thirty (30) days prior to the closing date of the sale. The notification shall be signed and dated, and shall state in writing: the date of the planned sale; the name(s), address(es) and contact person(s) representing the purchaser(s) on the sale; a specific description of subject business or property being sold; and certify in writing whether said sale is an arm's length transaction.

10. BP GROUP ENTITIES' PURCHASE OF BUSINESSES. In the event that any BP Group Entity purchases or establishes new business units in the U.S. or new BP Affiliates With Foreign Business during this Agreement, such BP Group Entity shall implement provisions of this Agreement, as applicable, including any training or education requirements, within one hundred eighty (180) days following such purchase or establishment. Should the BP Group Entity be unable to integrate such purchase or establishment within one hundred eighty (180) days, the BP Group Entity shall notify the EPA Authorized Representative(s) in writing, and shall provide a timeline for complete integration, which will be subject to EPA approval. The BP Group Entity shall be notified of EPA's decision on the integration plan within thirty (30) days of receipt. If the EPA Authorized Representative(s) does not respond within sixty (60) days of receipt, the BP Group Entity's proposed timeline shall be deemed approved.

If, during the period covered by this Agreement, a BP Group Entity acquires or gains control (other than through a joint venture) of any business concern, which enters into procurement or covered non-procurement transactions with the U.S., the EPA Authorized Representative(s) shall be notified within thirty (30) days after the closing of the transaction. Such notice shall state the name, address, nature of the business concern and any work it has done for any Government Entities over the last year.

11. RESTRUCTURING OR ACQUISITION OF NEW BUSINESSES. BP Group Entities shall not, through a change of name; business reorganization, restructuring or realignment; sale or purchase of assets; or similar action, seek to avoid the obligations and conditions set forth in this Agreement.

12. HIRING INELIGIBLE INDIVIDUALS. Beginning thirty (30) days after the Effective Date of this Agreement, prior to any Principal becoming employed in a US Respondent's business, US Respondents shall make reasonable inquiry into the status of that potential employee which shall include a review of the System for Award Management ("SAM") as maintained by the General Services Administration ("GSA") on the internet (<https://www.sam.gov>) for federal procurement and nonprocurement programs. The results from all SAM searches shall be kept in Respondent's records.

13. INELIGIBLE EMPLOYEES. BP Covered Entities are not required to terminate the employment of individuals who are or become suspended, debarred, proposed for debarment or otherwise ineligible as prescribed by any Federal Government Entity debarment program during their employment with BP Covered Entity. However, the BP Covered Entity will remove such Employees from responsibility for, or involvement with, business affairs related in any manner whatsoever with Federal Government covered procurement or non-procurement transactions or programs until the final resolution of such suspension or proposed debarment.

If any BP Covered Entity is aware that its Employee is debarred, the BP Covered Entity shall notify the EPA Authorized Representative(s) of such debarment and the reasons therefore, and of whatever personnel action has been taken or will be taken against the Employee, within thirty (30) days of the BP Covered Entity's knowledge of the debarment.

If any BP Covered Entity learns that any Principal is charged with a U.S. federal criminal offense relating to business activities or otherwise relating to honesty or integrity, the BP Covered Entity will remove that Principal immediately from responsibility for, or involvement with, business affairs as related in any manner to Federal Government procurement or covered nonprocurement transactions.

14. BUSINESS RELATIONSHIPS WITH SUSPENDED OR DEBARRED ENTITIES. For the purposes of specifically fulfilling their obligations under Federal procurement or nonprocurement covered transactions, BP Covered Entities shall not knowingly form a contract with, purchase from, or enter into any procurement or covered nonprocurement transaction (as defined at 48 C.F.R. Subpart 9.4, and 2 C.F.R. Part 180 and relevant agency implementing rules) with any individual or business entity that is listed on SAM as debarred, suspended, proposed for debarment or otherwise ineligible at the time of such procurement or nonprocurement award or transaction.

BP Covered Entities may enter into a business relationship or continue a federally funded procurement or nonprocurement covered transaction with a suspended or debarred Contractor/participant if: (a) the BP Covered Entity submits to EPA in writing the compelling reasons that justify entering into a business transaction with a person listed on SAM as soon as possible, but not later than sixty (60) days prior to entering into such a business relationship; and

(b) the EPA SDO approves the request to enter into the transaction. EPA shall respond to the request within thirty (30) days of receipt of the request. Unless otherwise indicated in writing by EPA, each request must be made on a transaction by transaction basis. The BP Covered Entity shall keep documentation of all search results and certifications that are required pursuant to this provision.

15. FUTURE MISCONDUCT DURING AGREEMENT. In matters unrelated to the matters addressed herein, EPA may find that a BP Covered Entity has materially breached this Agreement based on any misconduct that occurs during the period of the Agreement that may lead to any action taken pursuant to 2 C.F.R. § 180.700 or 2 C.F.R. § 180.800.

16. RESPONDENTS' LEGAL OBLIGATIONS. Nothing in this Agreement shall be deemed to limit a BP Covered Entity's obligations under any federal, state or local law or regulation, nor does this Agreement limit in any manner EPA's ability to enforce any law or regulation within EPA's jurisdiction.

17. UNALLOWABLE COSTS. BP Covered Entities agree that all costs, as defined in FAR 31.205-47, incurred by, for, or on behalf of any BP Covered Entity or any current or former officer, director, agent, Employee, consultant or Affiliate of BP Covered Entities shall be expressly unallowable costs for Federal Government contract or covered transaction accounting purposes. Unallowable costs include, but are not limited to, costs arising from, related to, or in connection with:

- a. The matters at issue herein;
- b. The Federal Government's criminal and civil investigations regarding the matters at issue herein; and
- c. EPA's review of BP's present responsibility, including but not limited to the costs of the company's submissions, presentations and appearances before the EPA SDO's Office and/or the EPA SDD.

The BP Covered Entity's costs of performing and administering the terms and conditions of this Agreement, the cost of the EPA Authorized Representative(s) and any fines or penalties levied or to be levied in or arising out of the matter at issue here are agreed to be expressly unallowable costs. Also unallowable are the BP Covered Entity's costs of bringing the BP Covered Entity's self-governance and Ethics & Compliance programs to a level acceptable to the EPA Authorized Representative(s). The BP Covered Entities agree to account separately for such costs. BP Covered Entities' costs of maintaining, operating and improving their corporate self-governance/compliance/ethics programs that are incurred after expiration of this Agreement, may be allowable costs.

BP Covered Entities agree to treat as unallowable costs the full salary and benefits of any officer, Employee or consultant terminated from their employ or removed from Federal Government contracting as a result of the wrongdoing at issue here and the cost of any severance payments or early retirement incentive payments paid to Employees released from the BP

Covered Entity as a result of the wrongdoing at issue here. For purposes of the preceding sentence, the salary and benefits costs shall include all such costs from the first instance of participation of each individual in the matters at issue here, as determined by the EPA Authorized Representative(s).

BP Covered Entities recognize that in order to comply with the terms and conditions of this paragraph, certain costs may need to be reclassified. BP Covered Entities shall proceed immediately to identify and reclassify such costs and, within ninety (90) days of the Effective Date of this Agreement, BP Covered Entities shall adjust any bid rate, billing rate or unsettled final indirect cost rate pools to eliminate any costs made unallowable by this Agreement, and shall advise the EPA Authorized Representative(s), the cognizant administrative contracting officer and the cognizant Federal Government auditor of the amount and nature of the reclassified costs within one hundred and twenty (120) days of the date of this Agreement.

18. ADVERSE ACTIONS. Each BP Covered Entity avers that adverse actions taken, or to be taken by it against any Employee or other individual associated with any BP Covered Entity arising out of or related to the matters at issue herein were not the result of any action by, or on behalf of, agents or employees of the U.S.

19. BREACH OF AGREEMENT/SURVIVAL OF CAUSE FOR DEBARMENT. A BP Covered Entity's failure to meet any of its obligations pursuant to the terms and conditions of this Agreement, if determined by the EPA SDO to be a material breach of this Agreement by that BP Covered Entity, shall constitute a separate cause for suspension and/or debarment of that BP Covered Entity. Violation of multiple non-material provisions, or repeated violations of a non-material provision, of this Agreement by a BP Covered Entity may cumulatively constitute a material breach of the Agreement by that BP Covered Entity. The underlying causes for debarment survive the execution of this Agreement, and EPA may initiate suspension or debarment proceedings against a BP Covered Entity or statutorily disqualify a BP Covered Entity on these grounds if there is a material breach of this Agreement. Nothing in this provision or this Agreement shall be construed as a waiver of any legal rights of a BP Covered Entity to contest the EPA SDO's determination of materiality or breach.

20. RESOLUTION OF DEBARMENT, SUSPENSION, OR STATUTORY DISQUALIFICATION. Upon execution of this Agreement, EPA, as Lead Agency in this matter pursuant to the Interagency Suspension and Debarment Committee process, shall terminate the suspension of BP Covered Entities and shall lift the statutory disqualification of BPXP as well as the statutory disqualifications of BPXA based on its November 29, 2007 CWA conviction and BPPNA based on its March 12, 2009 CAA conviction. In addition, provided that the terms and conditions of this Agreement are faithfully fulfilled, EPA, as Lead Agency, will not suspend, debar, or otherwise reinstate the statutory award disqualification of, a BP Covered Entity, as applicable, based on: (i) the *Deepwater Horizon* explosion, spill and cleanup, and matters related thereto, including the January 29, 2013 *Deepwater Horizon* conviction, the December 10, 2013 SEC Judgment Order and any judgment in civil litigation in which a BP Covered Entity is a defendant; (ii) the November 29, 2007 CWA conviction of BPXA; or (iii) the March 12, 2009 CAA conviction of BPPNA. EPA's decision, which is based upon the facts at issue here, shall not restrict EPA or any other agency of the Federal Government from instituting

administrative actions, including, without limitation, suspension, debarment or statutory disqualification should:

- a. Other information—indicating the propriety of such action come to the attention of EPA or such other Federal Government agency and such information provides an independent cause for suspension or debarment unrelated to the *Deepwater Horizon* explosion, spill and cleanup; or
- b. Additional facts concerning the *Deepwater Horizon* explosion, spill and cleanup be discovered by the Federal Government which were not disclosed by Respondents or otherwise produced to, or in the possession of, the Federal Government, prior to the Effective Date of this Agreement, including in any litigation related to the *Deepwater Horizon* explosion, spill and cleanup, and such facts provide an independent cause for suspension or debarment.

This Agreement relates solely to suspension, debarment and statutory disqualification issues, pursuant to 48 C.F.R. Subpart 9.4 and 2 C.F.R. Part 180, and 33 U.S.C. § 1368(a), in conjunction with the circumstances recited herein and in no way waives any criminal, civil, contractual or any other administrative remedy or right which the Federal Government may have for the circumstances so described in this Agreement.

21. CONCLUSION OF DEBARMENT PROCEEDINGS. BP Covered Entities hereby waive all further notice and opportunity for hearing to which they may otherwise be entitled to but for the terms and conditions of this Agreement except that BP Covered Entities shall receive such notice(s) as they would otherwise be entitled if paragraphs 19 or 20 of Section XII (General Provisions) of this Agreement are invoked.

22. RELEASE OF LIABILITY. BP Covered Entities hereby release the U.S., its instrumentalities, agents and employees in their official and personal capacities, of any and all liability or claims arising out of or related to the November 28, 2012 suspension of Respondents and Covered Affiliates, the February 1, 2013 CWA disqualification of BPXP at its Houston headquarters, the negotiation of this Agreement, the suspension, proposed debarment, or debarment of Respondents or Covered Affiliates and the discussions leading to this Agreement and all matters related to the February 26, 2008 and March 20, 2009 statutory disqualification notices.

Within seven (7) days after the Effective Date of this Agreement, Respondents shall enter into a stipulation of dismissal with EPA pursuant to Fed. R. Civ. P. 41(a)(1)(ii), which stipulation shall provide that the August 12, 2013 Complaint filed in the U.S. District Court for the Southern District of Texas against EPA, the EPA Administrator, the EPA SDO and EPA employees in civil case number 4:13-cv-2349 is dismissed with prejudice, with each party bearing its own fees and costs.

Within fifteen (15) days after the Effective Date of this Agreement, BPXP shall withdraw with prejudice its administrative appeal of BOEM's May 31, 2013 and June 27, 2013 decision

letters pending before the Interior Board of Land Appeals (IBLA 2013-0194), each party to bear its own costs.

23. RESPONSIBILITY. This Agreement is not an endorsement of BP Group Entities' ethics and compliance, corporate governance, process safety, or other programs. The SDO is only resolving the administrative actions herein based upon the BP Covered Entities' obligations to comply with the terms of this Agreement. By entering into this Agreement, EPA does not address any finding of responsibility under 48 C.F.R. § 9.104 or other applicable federal nonprocurement regulations for any specific Federal Government procurement or nonprocurement transaction. BP Covered Entities' compliance with the terms and conditions of this Agreement may constitute a contributing factor to be considered when rendering a responsibility finding for a specific government procurement or nonprocurement transaction.

24. RESTRICTION ON USE. BP Covered Entities shall not use any term or condition of this Agreement, or the fact of the existence of this Agreement, for any purpose related to the defense of, or in mitigation of, any criminal, civil or administrative investigation, proceeding or action except as set forth below.

Notwithstanding the restriction on use herein, the existence and substance of this Agreement may be used (a) to respond to Federal Government civil or administrative demands for injunctive relief, otherwise addressed by the terms of this Agreement or (b) in any criminal, civil or administrative matter in which the other party introduces evidence of this Agreement or of the suspension, debarment or statutory disqualifications which this Agreement resolves, or (c) in any matter initiated by any Government Entity to suspend, debar, or otherwise render ineligible or find not responsible a BP Covered Entity based on the events giving rise to this Agreement and the matters addressed herein.

The use of any term or condition of this Agreement, or the fact of the existence of this Agreement shall be strictly limited to the purposes for which this Agreement is used as provided under (a), (b) or (c) of this paragraph.

25. BANKRUPTCY. A BP Covered Entity shall not use bankruptcy proceedings to affect the enforcement of this Agreement in the interests of the Federal Government.

26. ENTIRE AGREEMENT. This Agreement constitutes the entire agreement between the parties and supersedes all prior agreements and understandings, whether oral or written, relating to the subject matter hereof. This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors and assigns.

27. COUNTERPARTS. This Agreement may be executed in one (1) or more counterparts, each of which shall be an original, but all of which taken together, shall constitute one and the same Agreement.

3. Section IV. Scope and Application:

a. *Replace Paragraph 4, Election of BP Affiliates with Foreign Business, and Paragraph 5, Election of BP Group Entities to Become BP Affiliates with Foreign Business” in their entirety with the following revised paragraphs 4 through 6:*

4. Non-Group U.S. Business With Existing Disclosed Foreign Covered Transactions.

This paragraph applies to the following group of seven Non-Group U.S. Businesses previously identified in EPA's November 28, 2012 Notice of Suspension: Air BP Limited; BP Marine Limited; BP Global Investments Salalah & Company LLC (including d/b/a BP Marine Global Investments Salalah and Co. LLC); BP Singapore; BP Oil International Limited; BP Australia PTY Limited; and BP International Limited. These seven Non-Group U.S. Businesses either: (a) as of March 13, 2014, were not participating in a Foreign Covered Transaction(s); or (b) between March 13, 2014 and the endorsement date of the Modification to the Administrative Agreement are a party to an ongoing Foreign Covered Transaction where the Administration Services will be performed by a Group U.S. Business or have entered into contract or award modifications transferring Administration Services under the Foreign Covered Transaction(s) to a Group US Business.

These seven Non-Group U.S. Businesses shall not be considered BP Affiliates with Foreign Business. However, if any of these seven Non-Group U.S. Businesses identify any new or ongoing Foreign Covered Transactions that were not previously disclosed, that entity shall proceed under the terms of Section IV, paragraph 5 or 6 below.

The seven Non-Group U.S. Businesses identified in paragraph 4 above:

(i) May continue to perform under the existing disclosed Foreign Covered Transactions covered by Section IV, paragraph 4;

(ii) Effective after May 20, 2014, shall not be subject to the requirements and obligations of this Agreement and shall not be considered Parties to this Agreement after that date for any Foreign Covered Transactions except as specifically otherwise provided;

(iii) Are not subject to audit pursuant to Section XI or any other terms of the Agreement, except that the EPA Authorized Representative(s) may verify their compliance with any applicable terms and conditions of this Agreement from its effective date until May 20, 2014, pursuant to Section XII (General Provisions), paragraph 8 (except for any provision providing for assistance from or review by the EPA Independent Auditor). Such verification shall be done through the evaluation of materials provided by the BP Covered Entities' Authorized Representative and shall not be subject to review by the EPA Independent Auditor.

The BP Authorized Representative shall report or provide the information regarding the Non-Group U.S. Businesses identified in this paragraph 4 as required in Section X (BP Covered Entities' Annual Reports) paragraphs 1.I. and 1.J.

5. Non-Group U.S. Business With Existing Undisclosed Foreign Covered Transactions.

This paragraph is applicable to any Non-Group U.S. Business that is identified as a party to an ongoing Foreign Covered Transaction that was not previously identified under Section IV, paragraph 4.

If the BP Authorized Representative becomes aware of an ongoing Foreign Covered Transaction not previously disclosed to the EPA, the BP Authorized Representative shall disclose the transaction to the EPA Authorized Representative in writing within ten (10) days (“10-day grace period”) of becoming aware of the transaction. If the EPA Authorized Representative becomes aware of an ongoing Foreign Covered Transaction not previously disclosed to the EPA, the BP Authorized Representative shall disclose the transaction to the EPA Authorized Representative in writing within ten (10) days (“10-day grace period”) of the EPA Authorized Representative’s request for such disclosure.

If the Foreign Covered Transaction does not provide for the performance of Administration Services by a Group U.S. Business, BP shall have ninety (90) days (“90-day grace period”) from the date it identifies the Non-Group U.S. Business that was party to the subject Foreign Covered Transaction to enter into a contract or award modification transferring Administration Services under the subject transaction from the Non-Group U.S. Business to a Group U.S. Business. If the subject transaction already provides for performance of Administration Services by a Group U.S. Business, or upon timely execution of a contract or award modification effecting this, notwithstanding any language in this Agreement to the contrary, the following provisions apply:

- (i) The Non-Group U.S. Business may continue to perform under the Foreign Covered Transaction;
- (ii) The Non-Group U.S. Business shall not be subject to the requirements and obligations of this Agreement and is not subject to audit pursuant to Section XI or any other terms of this Agreement;
- (iii) The information regarding the Non-Group U.S. Business required in Section X (BP Covered Entities’ Annual Reports) paragraphs 1.I. and 1.J. shall be reported by the BP Authorized Representative; and
- (iv) The Non-Group U.S. Business shall not be considered party to this Agreement.

If the Foreign Covered Transaction does not provide for performance of Administration Services by a Group U.S. Business and the Non-Group U.S. Business fails to transfer Administration Service under the subject transaction from the Non-Group U.S. Business to a Group US Business within the 90-day grace period, then that Non-Group U.S. Business will be considered a BP Affiliate With Foreign Business and subject to the Agreement as set forth at Section IV (Scope and Application), paragraph 3. Any such entity subject to the Agreement as a BP Affiliate with Foreign Business shall send written notice signed by an officer who is fully authorized to execute the Agreement on behalf of the BP Affiliate with Foreign Business to the EPA Authorized Representative(s), the EPA Independent Auditor and the BP Authorized Representative(s) by electronic mail and certified mail or equivalent within the 90-day grace period. Such written

notice shall also include a signed copy of the Agreement by a signatory who is fully authorized to execute the Agreement on behalf of the BP Affiliate with Foreign Business. The effective date of the Agreement for the BP Affiliate with Foreign Business shall be the date of the EPA SDO's endorsement for the Agreement for that BP Affiliate with Foreign Business. Such notice shall become an addendum to the Agreement.

6. Non-Group U.S. Business Entering into A New Foreign Covered Transaction. This paragraph is applicable to any Non-Group U.S. Business that becomes a party to a new Foreign Covered Transaction subsequent to the endorsement date of the Modification to the Administrative Agreement.

If the BP Authorized Representative becomes aware of a Foreign Covered Transaction not previously disclosed to the EPA that was entered into after the endorsement date of the Modification to the Administrative Agreement (one that is not governed by Section IV, paragraphs 4 or 5 herein), the BP Authorized Representative shall disclose the transaction to the EPA Authorized Representative in writing within ten (10) days ("10-day grace period") of becoming aware of the transaction. If the EPA Authorized Representative becomes aware of a Foreign Covered Transaction not previously disclosed to the EPA, the BP Authorized Representative shall disclose the transaction to the EPA Authorized Representative in writing within ten (10) days ("10-day grace period") of the EPA Authorized Representative's request for such disclosure.

If the subject Foreign Covered Transaction does not provide for the performance of Administration Services by a Group U.S. Business, BP shall have ninety (90) days ("90-day grace period") from the date it identifies the Non-Group U.S. Business that was party to the subject transaction to transfer Administration Services under the subject transaction from the Non-Group U.S. Business to a Group US Business. If the subject transaction provides for performance of Administration Services by a Group US Business, or upon timely execution of a contract or award modification effecting this, notwithstanding any language in this Administrative Agreement to the contrary, the following provisions apply:

- (i) The Non-Group U.S. Business may perform under the Foreign Covered Transaction for which the notice was sent to EPA;
- (ii) The Non-Group U.S. Business shall not be subject to the requirements and obligations of this Agreement and is not subject to audit pursuant to Section XI or any other terms of the Agreement;
- (iii) The information regarding the Non-Group U.S. Business required in Section X (BP Covered Entities' Annual Reports) paragraphs 1.I. and 1.J. shall be reported by the BP Authorized Representative; and
- (iv) The Non-Group U.S. Business shall not be considered party to this Agreement.

If the Foreign Covered Transaction does not provide for performance of Administration Services by a Group US Business and the Non-Group U.S. Business fails to transfer Administration

Service under the subject transaction from the Non-Group U.S. Business to a Group US Business within the 90-day grace period, then that Non-Group U.S. Business will be considered a BP Affiliate With Foreign Business and subject to the Agreement as set forth at Section IV (Scope and Application), paragraph 3. Any such entity subject to the Agreement as a BP Affiliate with Foreign Business shall send written notice signed by an officer who is fully authorized to execute the Agreement on behalf of the BP Affiliate with Foreign Business to the EPA Authorized Representative(s), the EPA Independent Auditor and the BP Authorized Representative(s) by electronic mail and certified mail or equivalent within the 90-day grace period. Such written notice shall also include a signed copy of the Agreement by a signatory who is fully authorized to execute the Agreement on behalf of the BP Affiliate with Foreign Business. The effective date of the Agreement for the BP Affiliate with Foreign Business shall be the date of the EPA SDO's endorsement for the Agreement for that BP Affiliate with Foreign Business.  - (i) Fine allocation. The fine payments shall be allocated as follows:
 - (A) As to Counts One through Eleven, the maximum statutory fine pursuant to 18 U.S.C. § 3571(c) of \$500,000 per count shall be paid, totaling \$5.5 million.
 - (B) As to Count Twelve, a total of \$1.15 billion (\$1,150,000,000) shall be paid to the Oil Spill Liability Trust Fund, pursuant to 33 U.S.C. §§ 1319(c)(1)(A) and 1321(b)(3), 18 U.S.C. § 3571(d) and 26 U.S.C. § 9509(b)(8).
 - (C) As to Count Thirteen, a total of \$100 million (\$100,000,000) shall be paid to the North American Wetlands Conservation Fund, pursuant to 16 U.S.C. §§ 703, 707 and 4406(b) and 18 U.S.C. § 3571(d), for

the purpose of wetlands restoration and conservation projects located in States bordering the Gulf of Mexico or otherwise designed to benefit migratory bird species and other wildlife and habitat affected by the Macondo oil spill.

- (D) As to Count Fourteen, the maximum statutory fine of \$500,000, pursuant to 18 U.S.C. § 3571(c), shall be paid.
- (ii) Schedule. The fines shall be paid according to the following schedule:
 - (A) As to Counts One through Eleven and Fourteen, all fines shall be paid within 60 days of sentencing.
 - (B) As to Counts Twelve and Thirteen, fines shall be paid on a pro rata basis as follows: \$250 million to be paid within 60 days of sentencing; an additional \$250 million to be paid within one year of sentencing; an additional \$250 million to be paid within two years of sentencing; an additional \$150 million to be paid within three years of sentencing; an additional \$150 million to be paid within four years of sentencing; and the remainder to be paid within five years of sentencing.

(c) A statutory-maximum term of five years of probation. Probation shall include the following mandatory and discretionary special conditions, pursuant to 18 U.S.C. §§ 3563(a) and (b):

- (i) The defendant shall not commit another federal, state, or local crime.
- (ii) The defendant shall notify the probation officer within seventy-two hours of any criminal prosecution against the defendant.
- (iii) The defendant shall answer truthfully all inquiries by the probation officer.
- (iv) The defendant shall provide to the probation officer full access to any of the defendant's business operating locations.
- (v) The defendant shall give ten days' prior notice to the probation officer of any intended change in principal business location or mailing address.
- (vi) The defendant shall notify the Court and the probation officer of any material change in the defendant's economic circumstances that might affect the defendant's ability to pay the fines and other financial obligations set forth herein.
- (vii) The defendant shall pay the fines set forth in paragraph 4(b) above.
- (viii) Pursuant to 18 U.S.C. § 3563(b)(22), an order, attached

hereto as Exhibit B, shall be entered. The terms of the order shall be enforceable as additional special conditions of probation.

The parties agree and stipulate that the specific discretionary terms of probation enumerated herein are appropriate, and further agree that no additional discretionary terms of probation should be imposed. The defendant, BP plc and any other BP plc entity shall not capitalize into inventory or basis or take as a tax deduction, in the United States or elsewhere, any portion of the monetary payments made pursuant to this plea agreement. The defendant, BP plc and any other BP plc entity shall not reference this plea agreement and any payments pursuant hereto or other compliance herewith in any public relations, marketing or advertising; provided, however, that the defendant, BP plc and any other BP plc entity shall be permitted to make required disclosures under applicable securities laws. The defendant further agrees that payments made pursuant to paragraph 4(c)(viii) above shall have no effect on, and shall not be argued by the defendant, BP plc or any other BP plc entity, to reduce in any way, any civil claims by any party arising out of the *Deepwater Horizon* blowout, explosion, oil spill and response, including but not limited to natural resource damage claims.

(d) The defendant further agrees to pay the special assessments, totaling \$4,975, before the time of sentencing and shall provide a receipt from the Clerk to the Department before sentencing as proof of this payment.

(e) The defendant shall pay any mandatory restitution specified in 18 U.S.C. § 3663A(b)(3), to the extent applicable, to the Clerk of the Court for the benefit of

the families or other designated representatives of the eleven men who died onboard the *Deepwater Horizon*. Restitution is not otherwise authorized for certain offenses in the plea agreement and, pursuant to 18 U.S.C. § 3663(a)(1)(B)(ii), is not otherwise appropriate because (i) restitution need not be addressed in this matter given that compensation for victims has been or is being addressed in other proceedings, including in MDL-2179 and (ii) fashioning of any restitution order would unduly complicate and prolong the sentencing process.

5. The defendant stipulates that there is a factual basis for the imposition of a criminal fine in the amount of \$1,256,000,000 pursuant to 18 U.S.C. § 3571(d) and that the payments made pursuant to paragraphs 4(b) and 4(c)(viii) do not together exceed the statutory-maximum fine available under that statute. The defendant hereby waives any right to jury or bench trial as to those payments.

6. The defendant will acknowledge acceptance of this plea agreement by the signature of its counsel and shall provide to the Department, as Exhibit C hereto, a certified resolution of the Board of Directors of BP Exploration and Production, Inc. authorizing the defendant to enter a plea of guilty and authorizing an agent to execute this agreement. The defendant will further provide to the Department, as Exhibit D hereto, a certified resolution of the Board of Directors of BP plc providing as follows:

(a) BP plc and other BP plc entities shall be bound by those specific terms of this agreement that expressly apply to BP plc and other BP plc entities. BP plc shall secure and deliver to the Department from both BP Corporation North America Inc. (“BPCNA”) and BP plc guarantees for all payments due from the defendant under this

agreement, with BPCNA as the primary guarantor and BP plc as the secondary guarantor in the event of a default by BPCNA. BP plc and BP BPCNA consent to the jurisdiction of U.S. courts solely for purposes of enforcing the guarantees. Any legal successor or assign of BPCNA or BP plc shall remain liable, as the case may be, for the guarantee of defendant's payment obligations hereunder, and an agreement to so remain liable shall be included by BPCNA or BP plc, respectively, in the terms of any sale, acquisition, or merger of those entities. Any legal successor or assign of defendant shall remain liable for defendant's obligations in this plea agreement, and an agreement to so remain liable shall be included by defendant in the terms of any sale, acquisition, or merger of defendant.

(b) The defendant, BP plc and other BP plc entities waive any statute of limitations as of the date of this agreement through the full term of defendant's probation and until all of the defendant's obligations under this agreement have been satisfied with regard to any conduct relating to or arising out of the *Deepwater Horizon* blowout, explosion, oil spill and response.

7. The Department agrees that, subject to paragraph 2 of this agreement, the Department shall not further prosecute the defendant, BP plc or any other BP plc entity, including all predecessors, successors and assigns of any of the above, for any conduct regarding any matters under investigation by the *Deepwater Horizon* Task Force relating to or arising out of the *Deepwater Horizon* blowout, explosion, oil spill and response. This agreement shall not apply to individuals. Should a court determine that the defendant has breached this agreement, the defendant will not be entitled to withdraw its plea of guilty, and the Department may prosecute the defendant, BP plc and any other BP plc entity, and any predecessors, successors and assigns of any

of the above, for any conduct relating to or arising out of the *Deepwater Horizon* blowout, explosion, oil spill and response, notwithstanding the expiration of any applicable statute of limitations following the signing of this plea agreement. In any such prosecution, the Department may use the defendant's admissions of guilt as admissible evidence against the defendant, BP plc and any other BP plc entity.

8. The Department agrees that, if requested to do so, it will advise any appropriate suspension or debarment authority that, in the Department's view, the defendant has accepted criminal responsibility for its conduct relating to the *Deepwater Horizon* blowout, explosion, oil spill and response by virtue of this guilty plea, and that BP is obligated pursuant to this agreement to cooperate in any ongoing criminal investigation by the Department relating to the *Deepwater Horizon* blowout, explosion, oil spill and response. Nothing in this agreement limits the rights and authority of the United States of America to take further civil or administrative action against the defendant including but not limited to any listing and debarment proceedings to restrict rights and opportunities of the defendant to contract with or receive assistance, loans and benefits from United States government agencies.

9. In exchange for the undertakings made by the Department in entering this plea agreement, the defendant voluntarily and expressly waives all rights to appeal or collaterally attack the defendant's conviction, sentence, or any other matter relating to this prosecution, whether such a right to appeal or collateral attack arises under 18 U.S.C. § 3742, 28 U.S.C. § 1291, 28 U.S.C. § 2255, or any other provision of law.

10. The defendant waives any claim under the Hyde Amendment, 18 U.S.C. § 3006A (Statutory Note), for attorney's fees and other litigation expenses arising out of the investigation or prosecution of this matter.

11. The defendant waives all rights, whether asserted directly or by a representative, to request or receive from any department or agency of the United States any records pertaining to the criminal investigation or prosecution of this criminal case, including without limitation any records that may be sought under the Freedom of Information Act, 5 U.S.C. § 552, or the Privacy Act, 5 U.S.C. § 552a.

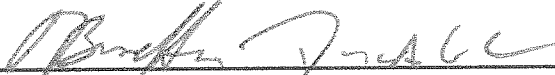

12. The defendant is satisfied with the legal representation provided by the defendant's lawyer; the defendant and its lawyer have fully discussed this plea agreement; and the defendant is agreeing to plead guilty because the defendant admits that it is guilty.

13. Both parties agree that the parties' guilty plea agreement contains no additional promises, agreements, or understandings other than those set forth in this written guilty

plea agreement, and that no additional promises, agreements, or understandings will be entered into unless in writing and signed by all parties.

Date: November 15, 2012

Exhibit A

Exhibit A

Defendant BP Exploration & Production, Inc. (“BP”) agrees that, if the case were to proceed to trial, the Government could establish beyond a reasonable doubt that:

At all relevant times, BP resided in, and engaged in regular business throughout, the states bordering the Gulf of Mexico, including in the Eastern District of Louisiana. On or about April 20, 2010, BP was the leaseholder and operator of the Macondo Well located off the coast of Louisiana. In this capacity, BP, as the designated operator under BOEMRE regulations, was ultimately responsible for conducting operations at Macondo in a way that ensured the safety and protection of personnel, equipment, natural resources, and the environment. BP hired Transocean, Ltd., the owner of the drilling rig *Deepwater Horizon*, a vessel, to provide the rig and drilling crew to implement BP’s drilling plan for the Macondo Well. Transocean was also responsible for conducting safe operations and for protecting personnel onboard. At all times relevant to the Information, the *Deepwater Horizon* was temporarily attached to and erected on the seabed of the Outer Continental Shelf in the Gulf of Mexico to explore and develop resources from the Outer Continental Shelf, to wit: oil and natural gas.

BP’s responsibility as the leaseholder and operator of the Macondo Well and Transocean’s responsibility as the rig owner imposed on each a duty to insure that the negative pressure test performed prior to temporarily abandoning the well was done safely, in accordance with the standard of care applicable in the deepwater oil exploration industry. On the night of the explosion, BP had two Well Site Leaders on the *Deepwater Horizon*, who were BP’s employees, agents, and highest-ranking representatives on the rig. The Well Site Leaders were responsible for supervising the negative pressure test conducted by Transocean.

On or about April 20, 2010, between approximately 5:00 and 8:00 p.m. Central Daylight Time, the negative pressure test performed on the Macondo Well provided multiple indications that the wellbore was not secure. BP's Well Site Leaders negligently supervised the negative pressure test during this time, failed to alert engineers on the shore of these indications, and, along with others, ultimately deemed the negative pressure test a success, all in violation of the applicable duty of care. The negligent conduct of BP's Well Site Leaders is attributable to BP.

BP's negligent conduct, among others, was a proximate cause of the deaths of eleven men and pollution resulting from the Macondo Well blowout. As a result of this negligent supervision and decision-making, BP and the Transocean rig crew proceeded with removing drilling mud from the Macondo well until it became so underbalanced that natural gas and oil migrated through the well, up through the riser, and onto the rig floor. This migration of natural gas and oil in turn caused multiple explosions and a fire which burned for two days, and resulted in the *Deepwater Horizon* sinking on or about April 22, 2010.

On or about April 20, 2010, in the Eastern District of Louisiana and elsewhere, BP, being a charterer of a vessel, to wit: the *Deepwater Horizon*, engaged in neglect through which the lives of the following persons were destroyed: Jason Christopher Anderson; Aaron Dale Burkeen; Donald Neal Clark; Stephen Ray Curtis; Gordon Lewis Jones; Roy Wyatt Kemp; Karl Dale Kleppinger Jr.; Keith Blair Manuel; Dewey Allen Revette; Shane Michael Roshto; and Adam Taylor Weise, in violation of Title 18, United States Code, Section 1115.

On or about April 20, 2010, in the Eastern District of Louisiana and elsewhere, BP did negligently discharge and cause to be discharged oil in connection with activities under the Outer Continental Shelf Lands Act and which may have affected natural resources belonging to, appertaining to, and under the exclusive management authority of the United States, in such

quantities as may be harmful in violation of Title 33, United States Code, Sections 1319(c)(1)(A) and 1321(b)(3).

On or about and between April 20, 2010, and December 31, 2010, in the Eastern District of Louisiana and elsewhere, BP did unlawfully kill and cause to be killed one or more migratory birds, including Brown Pelicans, Laughing Gulls, Northern Gannets, and other protected species, when defendant negligently discharged and caused to be discharged oil from the Macondo well.

All in violation of Title 16, United States Code, Sections 703 and 707(a).

On or about May 24, 2010, in the Eastern District of Louisiana and elsewhere, BP did corruptly, that is, with an improper purpose, endeavor to influence, obstruct, and impede the due and proper exercise of the power of inquiry under which an inquiry and investigation was being had by a Committee of the United States House of Representatives into the amount of oil flowing from the Macondo Well (“flow rate”) through the following omissions and false and misleading statements in its May 24, 2010 response (“Markey Response”) to the Committee on Energy and Commerce:

1. BP, through a former vice president, withheld information and documents relating to multiple flow-rate estimates prepared by BP engineers that showed flow rates far higher than 5,000 BOPD, including as high as 96,000 BOPD.
2. BP, through a former vice president, withheld information and documents relating to internal flow-rate estimates he prepared using the Bonn Agreement analysis, that showed flow rates far higher than 5,000 BOPD, and that went as high as 92,000 BOPD.

3. BP, through a former vice president, falsely represented that the flow-rate estimates included in the Response were the product of the generally-accepted ASTM methodology. At the time that this false representation was made, BP's former vice president knew that those estimates were the product of a methodology he devised after, among other things, a review of a Wikipedia entry about oil spill estimation.
4. BP, through a former vice president, falsely represented that the flow-rate estimates included in the Markey Response had played "an important part" in Unified Command's decision on April 28, 2010, to raise its own flow-rate estimate to 5,000 BOPD. At the time this false representation was made, BP's former vice president knew that those flow-rate estimates had not played "an important part" in Unified Command's decision to raise its flow-rate estimate and had not even been distributed outside of BP prior to that decision.
5. BP falsely suggested, in its May 24, 2010 letter, that the Unified Command's flow rate estimate of 5,000 barrels of oil per day ("BOPD") was the "most scientifically informed judgment" and that subsequent flow rate estimates had "yielded consistent results." In fact, as set forth above, BP had multiple internal documents with flow rate estimates that were significantly greater than 5,000 BOPD that it did not share with the Unified Command.
6. On or about June 25, 2010, in a BP letter to Congressman Markey, BP's former vice president inserted language that falsely stated that BP's worst case discharge estimate was raised from 60,000 BOPD to 100,000 BOPD after subsequent "pressure data was obtained from the BOP stack." At the time this false representation was made, BP's former vice president knew that the 100,000 BOPD figure was not first derived after

subsequent pressure data had been obtained, but instead, he had been aware of a 100,000 BOPD worst case discharge since as early as on or about April 21, 2010. BP's former vice president's knowledge and actions are attributable to BP.

All in violation of Title 18, United States Code, Section 1505.

Case No. _____

ORDER

Pursuant to 18 U.S.C. § 3563(b)(22), IT IS HEREBY ORDERED:

Monitors

1. Retention of Monitors and Duties:

- a. *Process Safety Monitor:* The defendant shall retain, subject to approval by the Assistant Attorney General, Criminal Division, Department of Justice (“DOJ”), or his/her designee, a process safety monitor who shall be experienced in process safety and risk management and familiar with complex industrial operations such as deepwater oil and gas drilling (hereinafter the “Process Safety Monitor”). The Process Safety Monitor’s duties will be to review, evaluate and provide recommendations for the improvement of defendant’s process safety and risk management procedures, including, but not limited to, the defendant’s major accident/hazard risk review of drilling-related process safety barriers and mitigations, for the purpose of preventing future harm to persons, property and the environment resulting from deepwater drilling in the Gulf of Mexico by the defendant and its Affiliates. For the purposes of this Order, the term “Affiliates” shall mean any entity

controlled, directly or indirectly, by BP plc that participates in deepwater drilling in the Gulf of Mexico, whether such entity is in existence now or in the future. The Process Safety Monitor shall among other things participate in defendant's major accident/hazard risk review for drilling, intervention, and completion, including: reviewing of relevant materials, participating in meetings and other deliberations, and making suggestions on the strength and effectiveness of the risk mitigation and prevention measures, and changes in such measures.

- b. *Ethics Monitor*: The defendant shall retain, subject to approval by the Assistant Attorney General, Criminal Division, DOJ, or his/her designee, an ethics monitor who shall be familiar with best practices with respect to corporate codes of conduct, including implementation, training and enforcement thereof (hereinafter the "Ethics Monitor"). The Ethics Monitor's duties will be to review and provide recommendations for improvement of BP plc's Code of Conduct and its implementation and enforcement for the purpose of preventing future criminal and ethical violations with respect to dealings with regulatory and enforcement authorities by the defendant and Affiliates, including, but not limited to, violations related to the conduct giving rise to the Information filed in this matter. In the event that any federal suspension and debarment authority requires a monitor with responsibilities related to ethics and compliance in any agreement with a suspension and debarment authority, the defendant may petition DOJ to have the Ethics Monitor replaced by (or have the duties combined with that of) such other monitor.

2. Monitorship Scheduling and Compensation:

- a. Within 60 calendar days after the Court imposes sentence (the “Effective Date”), the defendant shall forward to the Assistant Attorney General, Criminal Division, DOJ, or his/her designee, the names of no more than five proposed monitors ranked in order of preference as to each of the two categories of monitorships. DOJ will promptly review and assess the defendant’s proposals. The defendant shall retain each monitor as soon as possible, but not later than 60 calendar days after the date that DOJ approves each such proposed monitor.
- b. The monitorships shall exist for a period of four years from the date of the monitor’s engagement unless earlier terminated pursuant to paragraph 4(f) herein.
- c. Each monitor shall have the authority to employ personnel reasonably necessary, and with appropriate professional qualifications, to assist in the proper discharge of the monitor’s duties, as specified herein. The defendant shall have the opportunity to perform routine conflict checks on individuals or entities the monitor proposes to engage, and within two weeks of a proposed engagement, the defendant shall advise the monitor if any conflict exists. Any disputes in this respect shall be decided by DOJ in its sole discretion.
- d. The reasonable compensation and expenses of each monitor, and any persons hired by each monitor pursuant to his/her authority hereunder, shall be paid by the defendant. Each monitor, and any persons hired by each monitor, shall be compensated in accordance with their typical hourly rates or a reasonable fee determined by the monitor based on applicable market rates.

3. Powers of the Monitors:

- a. Each monitor shall have the authority to take such reasonable steps as, in the monitor's view, may be necessary to be fully informed with respect to the monitor's duties.
- b. The defendant, BP plc and Affiliates shall cooperate fully with the monitors to allow each monitor to fulfill his or her respective duties under this Order, including providing each monitor with access to all information, documents, records, facilities and/or employees, as reasonably requested by the monitor.
- c. Each monitor shall maintain as confidential all non-public information, documents and records it receives from the defendant, subject to the monitor's reporting requirements herein. Each monitor shall take appropriate steps to ensure that any of his/her consultants or employees shall also maintain the confidentiality of all such non-public information.
- d. Should any monitor, or staff assisting any monitor in fulfilling his or her responsibilities, be provided access to materials ("Subject Materials") that may be protected by the attorney-client privilege or work product doctrine (or any other legally cognizable privilege or protection), the following conditions shall apply:
 - i. Any provision of Subject Materials to a monitor pursuant to this order will not constitute waiver of any applicable privilege.
 - ii. In the event the monitors or DOJ seeks disclosure of Subject Materials for any reason, the monitor shall provide the defendant with timely notice of its intention to do so.

iii. Each monitor shall return all Subject Materials to defendant, BP plc, and Affiliates upon the date the respective monitor is finished using Subject Materials for the purpose of fulfilling his or her responsibilities.

4. Monitors' Reviews and Reports:

- a. Each monitor shall conduct an initial review and prepare an initial report, followed by up to three follow-up reviews and reports as described below. With respect to each review, whether initial or follow-up, after consultation with the defendant and DOJ, each monitor shall prepare a written work plan, which shall be submitted to the defendant and DOJ for review and comment no fewer than 60 calendar days prior to commencing each review. The defendant and DOJ shall provide comment no later than 30 calendar days after receipt of the written work plan. The monitors' work plans for the initial review shall include such steps as are reasonably necessary to conduct an effective initial review. In developing each work plan and in carrying out the reviews pursuant to such plans, the monitors are encouraged to coordinate with the defendant. Any disputes between the defendant and the monitors with respect to the work plan shall be decided by DOJ in its sole discretion.
- b. Each monitor's initial review shall commence no later than 120 calendar days from the date of the engagement of the monitor, unless otherwise agreed between the defendant, the respective monitor and DOJ.
- c. Each monitor shall issue a written report within 120 calendar days of completing the initial review setting forth the monitor's assessment and making recommendations reasonably designed to improve the effectiveness of the defendant's process safety and risk management as to deepwater drilling. Each written report shall set forth the

monitor's assessments, recommendations, and the reasons for the recommendations. The monitors are encouraged to consult with the defendant concerning the monitors' findings and recommendations on an ongoing basis. If a monitor identifies a potential violation of the law, the monitor shall promptly report the potential violation to the Probation Office, DOJ and the defendant. The monitors shall provide the written report to the Probation Officer, the Assistant Attorney General, Criminal Division, Department of Justice, or his/her designee, the Board of Directors of the defendant and the Board of Directors of BP plc. After consultation with the defendant, the monitors may extend the time period for issuance of the written report for up to 60 calendar days with prior written approval of DOJ.

- d. Within 120 calendar days after receiving the monitor(s)' report, the defendant, and to the extent set forth in the report, BP plc and Affiliates, shall adopt all recommendations in the report; provided, however, that within 30 calendar days after receiving the report, the defendant shall notify the monitor and DOJ in writing of any recommendations that the defendant, BP plc or Affiliates considers inconsistent with applicable law or regulation or otherwise inadvisable. As to any recommendation on which the defendant and the monitor do not agree, the defendant and the monitor shall attempt in good faith to reach an agreement within 45 calendar days after the defendant serves the written notice. In the event the defendant and the monitor are unable to agree on an acceptable alternative proposal, the defendant shall promptly consult with DOJ, and may request that DOJ consult with the Bureau of Safety and Environmental Enforcement ("BSEE") regarding the dispute. DOJ will submit a written opinion to the defendant as to whether the defendant should adopt the

monitor's recommendation or an alternative proposal, and the defendant shall abide by that determination. Pending such determination, the defendant shall not be required to adopt any contested recommendation(s). With respect to any recommendation that the monitor determines cannot reasonably be adopted within 120 calendar days after receiving DOJ's report, the monitor may extend the time period for adoption with prior written approval of DOJ.

- e. Each monitor shall undertake up to three follow-up reviews. Within 120 calendar days of initiating each follow-up review, the monitors shall complete the review and report on the monitors' findings in the same fashion as set forth above with respect to the initial review. The first follow-up review shall commence one year after the initial review was completed. The second follow-up review shall commence one year after the first follow-up review was completed. The third follow-up review shall commence one year after the second follow-up review was completed. After consultation with the defendant, the monitor(s) may extend the time period for these follow-up reviews for up to 60 calendar days with prior written approval of DOJ.
- f. If, reasonably promptly after completing two follow-up reviews, a monitor and the defendant mutually agree that the defendant's applicable policies and procedures, and implementation and enforcement thereof, are appropriate, and that further monitoring and review is not warranted, then the monitor may apply to DOJ for permission to forego the third follow-up review. If DOJ approves, then DOJ shall make a recommendation to the Probation Officer and the Court to forego the third follow-up review, and, upon approval by the Probation Officer and the Court, the engagement of the monitorship shall terminate.

Safety and Environmental Management Systems Audits

5. For every contracted drilling rig currently in the defendant's fleet with a remaining contract term of at least three but less than six years as of the Effective Date, the defendant shall conduct at least one Safety and Environmental Management System ("SEMS") audit as described in 30 C.F.R. Part 250 during the remaining contract term. For every contracted drilling rig currently in the defendant's fleet with a remaining contract term of six years or more as of the Effective Date, the defendant shall conduct at least two SEMS audits during the remaining contract term under applicable BSEE regulations. For drilling rigs that are contracted after the Effective Date, the defendant shall comply with applicable BSEE regulations concerning SEMS audits.
6. For its current contracts with rig contractors with respect to deepwater drilling rigs, the defendant shall request that its rig contractors join the Center for Offshore Safety ("COS"), which requires its members to conduct SEMS audits. For new contracts with rig contractors with respect to deepwater drilling rigs, the defendant shall require rig contractors to join COS. The defendant may choose to conduct joint SEMS audits with its contractors for contracted deepwater drilling rigs.
7. The defendant shall conduct one SEMS audit for each of its operated platforms, including BP-owned platform rigs, within five years of the Effective Date.
8. With respect to defendant-operated platforms, the defendant shall follow Third Party SEMS Auditing and Certification of Deepwater Operations Requirements as specified by COS.

Operational Oversight

9. Third Party Verification of Blowout Preventers. Each time the defendant or its contractors brings a subsea blowout preventer system as referenced in 30 CFR 250.440 ("BOP") into service on a moored or dynamically positioned drilling rig, and each time a subsea BOP from

a moored or dynamically positioned drilling rig is brought to the surface, the defendant or its contractors, through a third party, will verify that all required and recommended testing and maintenance of the BOP were performed in accordance with manufacturer recommendations and API Recommended Practice 53 (and Standard 53 when it becomes final).

10. Deepwater Well Control Competency Assessments. The defendant shall implement the following measures to strengthen its well control competencies:

- a. The defendant shall develop, within 6 months of the Effective Date, a deepwater well control competency assessment plan for the defendant personnel responsible for oversight of deepwater drilling operations on defendant-owned or contracted rigs. The plan shall exceed the competency requirements set forth in 30 CFR §§250.1500-1510 (Subpart O), and shall include, but not be limited to: identifying skill sets and other competencies needed to recognize, evaluate, respond, and remediate well control events; providing for the training, assessment of skills and competencies; and undertaking appropriate corrective actions for personnel who do not demonstrate the identified skills or competencies.
- b. The defendant shall provide to BSEE, on an annual basis, a summary report regarding competency assessment plan implementation, including the types and aggregate number of people assessed, found competent, found in need of further training, and the number who have completed training and reassessment.

11. Cement Design and Competency.

- a. The defendant shall require review and approval by subject matter experts of the defendant, BP plc, or the Affiliates of cement designs used for primary cementing of casing and exposed hydrocarbon-bearing zones during drilling operations at deepwater wells.

- b. The defendant shall require that lab testing of cement slurries for primary cementing of casing and exposed hydrocarbon bearing zones relating to drilling operations of deepwater wells be conducted or witnessed by a defendant engineer competent to evaluate such lab testing or a competent third party independent of the cement provider. The defendant shall provide lab results to the applicable BSEE field office within a reasonable period of time.
- c. The defendant shall develop and provide to BSEE, within 6 months of the Effective Date, a framework document setting forth the defendant's competency requirements for cement subject matter experts, subject to review and approval at BSEE's option.

12. Houston Monitoring Center ("HMC"). The defendant shall maintain a real-time drilling operations monitoring center at its Houston office or other appropriate location. The well control data to be monitored will include, at a minimum, active pit volume, pump pressure, flow rate out, gas units, and trip displacement. The HMC shall monitor such data for all defendant-owned or contracted rigs conducting drilling with a subsea BOP installed on the wellhead. The defendant shall provide BSEE personnel with reasonable access to the HMC.
13. Incident Reporting. The defendant shall provide to BSEE, on an annual basis, a summary report documenting incidents operators are required to report under 30 CFR 250.188. For each item reported, the defendant shall describe the actions implemented to correct the item and/or to prevent recurrence. This report shall be submitted by March 31st of each year covering incidents during the previous calendar year.

Oil Spill Response Training and Drills

14. The defendant shall train each Command Officer and Staff, General Section Chiefs, and Staff including the Oil Spill Response Coordinator and alternates of the GoM Incident

- Management organization at least once per year and require their participation in at least one table top oil spill response exercise per year.
15. The defendant shall maintain a crisis management organization, including two crisis management centers, consisting of at least 6 crisis management professionals (including a supervisor) to assist in oil spill response training and drills.

Best Practices

20. Oil Spill Response Plan (OSRP). Within 60 days of entry of this Order, the defendant shall revise its Oil Spill Response Plan as necessary to include:
 - a. Provisions to maintain access to a supply of dispersant and fire boom for use in the event of an uncontrolled long-term blowout for the length of time required to drill a relief well;
 - b. Contingencies for maintaining an ongoing response for the length of time required to drill a relief well;

- c. Description of measures and equipment necessary to maximize the effectiveness and efficiency of the response equipment used to recover the discharge on the water's surface, including methods to increase encounter rates;
- d. Information regarding remote sensing technology and equipment to be used to track oil slicks, including oil spill detection systems and remote thickness detection systems (e.g., X-band/infrared systems);
- e. Information regarding the use of communication systems between response vessels and spotter personnel;
- f. Shoreline protection strategy that is consistent with applicable area contingency plans; and
- g. For operations using a subsea BOP or a surface BOP on a floating facility, a discussion regarding strategies and plans related to source abatement and control for blowouts from drilling.

21. Safety Technology Developed with Industry. The defendant shall collaborate with industry and academic efforts to develop discrete technologies to enhance operational safety with respect to deepwater drilling. Within one year of the Effective Date, the defendant shall propose and initiate collaboration on at least two pilot projects to evaluate technology enhancements over the course of the five year period following the Effective Date of this Order. Upon conclusion of the pilot projects, the defendant will propose to BSEE at least two pilot projects for implementation and implement them unless the defendant demonstrates that one or more pilot projects is technically unsound or economically infeasible.

22. Other Safety Technology Development. Over the course of the three years following the Effective Date of this Order defendant will advance to BSEE three proposals in one or more

of the following categories for pilot projects regarding the development of specific new technology in: (1) enhancing functionality, intervention, testing and activation of BOP systems such as acoustics and subsea communications capabilities; (2) enhancing well design; or (3) enhancing real-time monitoring on rig and onshore. Upon conclusion of the pilot projects, the defendant will implement at least two pilot projects, unless the defendant demonstrates that one or more pilot projects is technically unsound or economically infeasible.

Transparency

23. The defendant will create, within 90 days after the Effective Date, a public website that contains the following information:
- a. Lessons learned from the Deepwater Horizon incident;
 - b. Annual progress reports on its compliance with the special terms of probation contained in this Order;
 - c. Annual summaries of recordable safety incidents, days away from work, hydrocarbon spills and the volume thereof; and
 - d. An annual list of all incidents of non-compliance with BSEE or BOEM regulations or probation for which the defendant is cited, including corrective actions taken and penalties assessed.

Rig Equipment: Two Blind Shear Rams

24. The defendant will use, and require its contractors to use, subsea BOPs equipped with no fewer than two blind shear rams and a casing shear ram on all drilling rigs under contract to the defendant for deepwater drilling operations in dynamic positioning mode. As to moored drilling rigs under contract to the defendant which use subsea BOPs, the defendant will require that each BOP used in deepwater drilling operations be equipped with two shear

rams, including at least one blind shear ram and either an additional blind shear ram or a casing shear ram.

Safety Organization

25. The defendant shall maintain a safety organization that has the authority to intervene or stop any operation that it deems unsafe.

Third-Party Auditor

26. The defendant will enter into a contract with an independent third-party (referred to herein as “the Auditor”) who shall review and report to the Probation Officer, DOJ, and the defendant on the defendant's compliance with paragraphs 5 through 25 of this Order. The reasonable compensation and expenses of the Auditor shall be paid by the defendant. The Auditor shall be compensated in accordance with its typical hourly rates or a reasonable fee determined by the Auditor based on applicable market rates

27. The defendant will propose auditor(s) to perform these functions to DOJ within 90 days after the Effective Date, and the selection shall be subject to DOJ's approval.

28. On an annual basis, the Auditor shall perform his/her responsibilities by reviewing documentation and taking such other reasonable measures as may be appropriate to sample or test the defendant's compliance with paragraphs 5 through 25 of this Order. The Auditor shall identify and report annually its findings on the defendant's compliance with the terms of this Order to the Probation Officer, DOJ, and the defendant.

29. If the Auditor finds deficiencies in the defendant's compliance with paragraphs 5 through 25 of this Order, the Auditor will provide the Probation Officer, DOJ, and the defendant prompt notice and the defendant will, within 30 days, provide a plan to address the deficiencies and an opportunity to cure. In the event DOJ finds the defendant's plan to address the

deficiencies unacceptable, DOJ will submit a written opinion to the defendant identifying its objections and advising the defendant of an acceptable means of addressing the deficiencies. Within 30 days of receiving any such objections from DOJ, the defendant will provide an updated plan to the Auditor and DOJ which either provides for implementation of an option suggested by DOJ or an alternative means which DOJ determines to satisfactorily address its objections.

30. In addition to an annual report, the auditor shall periodically evaluate and report to the Probation Officer, BSEE, DOJ, and the defendant whether the defendant has complied with any plan to address deficiencies identified by the Auditor.
31. In the event the Auditor resigns, the defendant will propose to DOJ replacement auditor(s) to perform these functions promptly after such resignation. Selection of a replacement auditor shall be subject to the same process set forth immediately above.

Development of Implementation Plan

32. The provisions in Paragraphs 5-31 constitute a framework and outline of the subject areas for the development of more specific measures that the defendant must implement pursuant to this Order. By no later than 60 days after the Effective Date of this Order, the defendant shall submit a detailed implementation plan for approval by the Probation Officer and DOJ. The defendant shall consult with DOJ or its designee in preparing the implementation plan, and the plan shall include among other things, and as necessary and appropriate, interim milestones covering each of the following areas: Safety and Environmental Management Systems Audits (Paragraphs 5-8), Operational Oversight (Paragraphs 9-13), Oil Spill Response Training and Drills (Paragraphs 14-19), Best Practices (Paragraphs 20-22), Transparency (Paragraph 23), Rig Equipment: Two Blind Shear Rams (Paragraph 24), Safety

Organization (Paragraph 25) and Third-Party Auditor (Paragraphs 26-31). Upon approval of the implementation plan by the Probation Officer and DOJ, the defendant shall comply with the plan. After approval of the implementation plan, the defendant may request in writing that the Probation Officer and DOJ approve modifications of the implementation plan for good cause. Upon approval of a modification by the Probation Officer and DOJ, the defendant shall comply with the implementation plan as modified. Compliance with the implementation plan's provisions is a special condition of the defendant's probation. The defendant is required to provide prompt notice to the Probation Officer in the event the defendant fails to comply with any of the provisions of the implementation plan, including meeting any of the interim milestones.

Gulf of Mexico Research Initiative

33. The defendant will continue to fulfill its commitment to fund the Gulf of Mexico Research Initiative announced by BP on May 24, 2010, at the level established by the Master Research Agreement of March 14, 2011 between BP and the Gulf of Mexico Alliance.

National Academy of Sciences

34. The defendant shall pay \$350 million (\$350,000,000.00) to the National Academy of Sciences for the purposes of oil spill prevention and response in the Gulf of Mexico, as provided for in an agreement between the defendant and the National Academy of Sciences attached hereto as Exhibit 1.

National Fish and Wildlife Foundation

35. The defendant shall pay \$2.394 billion (\$2,394,000,000.00) to the National Fish and Wildlife Foundation ("NFWF"), a nonprofit organization established pursuant to 16 U.S.C. § 3701-3710. With respect to the work described in paragraph 37 below, the defendant shall assume

no responsibilities or obligations other than making the payments described in paragraphs 35 and 36.

36. The defendant's payments to NFWF shall be made according to the following schedule: (a) \$100 million to be paid within 60 days of sentencing; (b) an additional \$300 million to be paid within one year of sentencing; (c) an additional \$300 million to be paid within two years of sentencing; (d) an additional \$300 million to be paid within three years of sentencing; (e) an additional \$500 million to be paid within four years of sentencing; and (f) the remainder to be paid within five years of sentencing. Payments shall be made by certified check payable to the National Fish and Wildlife Foundation and mailed to the attention of its Chief Financial Officer at 1133 15th Street, NW, Suite 1100, Washington, DC 20005, and including a reference to the case number in this proceeding; or by electronic funds transfer in accordance with written instructions to be provided to the defendant by NFWF at the time of transfer.

37. NFWF shall use the money it receives from the defendant pursuant to this Order for the following purposes and subject to the following conditions:

- a. To remedy harm and eliminate or reduce the risk of future harm to Gulf Coast natural resources, NFWF shall use approximately half of the payments to conduct or fund projects to remedy harm to resources where there has been injury to, or destruction of, loss of, or loss of use of those resources resulting from the Macondo oil spill. NFWF shall conduct or fund projects in the following states in approximately the following proportions: (1) Alabama, 28%, (2) Florida, 28%, (3) Mississippi, 28%, and (4) Texas, 16%. NFWF shall consult with appropriate state resource managers, as well as federal resource managers that have the statutory authority for coordination or

cooperation with private entities, to identify projects and to maximize the environmental benefits of such projects.

- b. To remedy harm and eliminate or reduce the risk of future harm to the State of Louisiana and its natural resources, NFWF will use approximately half of the payments to create or restore barrier islands off the coast of Louisiana and/or to implement river diversion projects on the Mississippi and/or Atchafalaya Rivers for the purpose of creating, preserving and restoring coastal habitat, in order to remedy harm to resources where there has been injury to, or destruction of, loss of, or loss of use of those resources resulting from the Macondo oil spill. In conducting or funding these projects, NFWF will consult with State resource managers, as well as federal resource managers that have the statutory authority for coordination or cooperation with private entities regarding management or protection for coastal habitat, to identify the highest priority projects, and to maximize the environmental benefits of such projects. In identifying projects, NFWF shall consider the State's Coastal Master Plan, as well as the Louisiana Coastal Area Mississippi River Hydrodynamic and Delta Management Study, as appropriate.
- c. In identifying and selecting projects to receive funding pursuant to this Order, NFWF shall not incur liability of any nature in connection with any act or omission, made in good faith, in the administration of the funds or otherwise pursuant to this Order, excepting, however, liability resulting from NFWF's gross negligence or willful misconduct. In addition, if and to the extent NFWF grants funds to or contracts with any governmental entity to implement any project under this Order: (a) NFWF shall be deemed to act solely as an administrative agent in contracting for, granting to, and

disbursing funds for any such project, and (b) NFWF shall not be deemed to incur any liability of any nature in connection with the design, engineering, construction, operation, or maintenance of any such project, including, without limitation, any impact or consequences of any such project on fish, wildlife, plant, or other natural resources, personal injury or property damage.

- d. NFWF's use of funds received pursuant to this Order shall be subject to the reporting requirements of 16 U.S.C. § 3706. In addition, NFWF shall report to the Probation Officer and to the parties regarding the status and disposition of money it has received pursuant to this Order, on at least an annual basis, until all such money has been spent.

Successors

38. This Order shall be applicable to the defendant, and to the extent specified herein, to BP plc and Affiliates, during the defendant's term of probation.
39. In the event of a sale, assignment or transfer of all of the defendant's stock or assets to an unaffiliated third party pursuant to an arm's-length transaction, the terms of this Order shall continue to apply to the defendant and to any successor of the defendant.
40. With respect to the sale, assignment or transfer of some but not all of defendant's assets to an unaffiliated third party pursuant to arm's-length transaction, including but not limited to the transfer of operational control of a jointly owned asset to an unaffiliated third party, such third party shall not be liable for defendant's obligations, and the defendant and, as necessary, BP plc and Affiliates, shall remain obligated to comply with the obligations in this Order with respect to all non-disposed assets, but not with respect to the sold, assigned or transferred assets.

41. With respect to a sale, assignment, or transfer covered in paragraph 39, a third party purchaser may petition the Court to be relieved from one or more terms of this Order upon a showing that (a) the third party purchaser has a SEMS system compliant with current BSEE regulations; and (b) all applicable regulatory approvals for the transaction have been or will be obtained. The third party purchaser may also petition the Court to be relieved from any particular term in Paragraphs 5 through 25 on the grounds that the particular term creates inconsistent, conflicting, or redundant obligations under the third party purchaser's existing SEMS systems and operational practices and procedures or other reasonable grounds. Prior to petitioning the Court for such relief, the third party will consult with DOJ regarding the requested relief, and DOJ will advise the Court of its conclusion as to whether the requested relief is appropriate.

42. The requirements of this Order are in addition to all other applicable requirements of law. This Order does not operate as a permit under federal, state or local regulations, and the defendant remains responsible for complying with all applicable federal, state and local laws, orders and permits. The defendant may not claim that compliance with this Order is a defense to any action commenced under applicable federal, state or local law. The government does not warrant that BP's compliance with this Order constitutes compliance with other applicable legal requirements, including but not limited to BSEE audit requirements.

43. The defendant's obligations pursuant to this Order expire five years after the Effective Date except as otherwise provided herein or as modified by the Court.

SO ORDERED this ___ day of _____, 2012.

4. NAS shall use the Endowment to establish a program focused on human health and environmental protection including issues relating to offshore oil drilling and hydrocarbon production and transportation in the Gulf of Mexico and on the United States' outer continental shelf (the "Program"). The Program will carry out studies, projects, and other activities that utilize the scientific, technical, engineering, medical, and health expertise

of the National Academy of Sciences, the National Academy of Engineering, the Institute of Medicine, the National Research Council, and the nation's scientific, engineering, and health-care communities. The Program will seek to advance scientific and technical understanding with the objective of enhancing the safety of offshore oil drilling and hydrocarbon production and transportation in the Gulf of Mexico and on the United States' outer continental shelf. The Program will include the assessment and evaluation of strategies and technologies with the objective of enhancing the protection of human health and environmental resources in the Gulf of Mexico and on the United States' outer continental shelf. The manner in which the studies, projects, and other activities are to be conducted will be determined solely by NAS. In accordance with normal policies and procedures of NAS, the Program will be conducted by NAS based on scientific merit and integrity, with emphasis on freedom of inquiry and independent nonpartisan advice and recommendations.

5. The Program shall seek to carry out studies, projects, and other activities in the public interest that would not otherwise be adequately funded or supported by private industry.

III. Programmatic Objectives

6. To address the purpose described in paragraph 4, the Program shall fund and carry out studies, projects, and other activities in three basic categories: (a) research and development, (b) education and training, and (c) environmental monitoring. The Program should strive to achieve a balance of studies, projects, and other activities, consistent with paragraphs 4 and 18.

7. *Research and development.* The Program shall fund and carry out studies, projects, and other activities with the objective of contributing to research and development related to the protection of human health and environmental resources including issues concerning the safety of offshore oil drilling and hydrocarbon production and transportation in the Gulf of Mexico and on the United States' outer continental shelf.

8. *Education and training.* The Program shall fund and carry out studies, projects, and other activities with the objective of contributing to enhanced education and training for undergraduate, graduate, and professional-school students, private- and public-sector employees, and Gulf Coast regional communities, related to the protection of human health and environmental resources including issues concerning the safety of offshore oil drilling and hydrocarbon production and transportation in the Gulf of Mexico and on the United States' outer continental shelf.

9. *Environmental monitoring.* The Program shall fund and carry out studies, projects, and other activities with the objective of contributing to the development of advanced environmental monitoring systems related to the protection of human health and environmental resources including issues concerning the safety of offshore oil drilling and hydrocarbon production and transportation in the Gulf of Mexico and on the United States' outer continental shelf.

IV. Structure and Organization

10. NAS shall appoint a Board to provide general oversight for the Program. The members of the Board shall be scientists, engineers, and other experts whose experience and knowledge can contribute to the oversight of the Program. No current officer or current employee of the United States Government can serve on the Board.

11. NAS shall appoint additional committees and panels of volunteer experts and establish or make arrangements with other entities as needed to carry out the Program. At a minimum, NAS shall appoint committees for the following three topics: (1) research and development, (2) education and training, and (3) environmental monitoring. No current officer or current employee of the United States Government can serve on a committee or panel appointed by NAS under this paragraph.

12. At least once a year, NAS shall seek the recommendations of each of the following entities (or its designees) concerning the administration of the Program, provided that the role of each such entity shall be solely advisory:

- a. In accordance with its statutory responsibilities and as necessary to meet the statutory requirement that it coordinate a comprehensive program "in cooperation and coordination with industry, universities, research institutions, State governments, and other nations, as appropriate," 33 U.S.C. § 2761, the Interagency Coordinating Committee on Oil Pollution Research (ICOPR), including the Department of the Interior's Bureau of Safety and Environmental Enforcement (BSEE) and Bureau of Ocean Energy Management (BOEM); and
- b. The environmental-protection departments and other coastal natural-resource managers for the States of Alabama, Florida, Louisiana, Mississippi, and Texas.

13. Appointments to the Board, committees, and panels shall be in accordance with (a) principles similar to those underlying section 15 of the Federal Advisory Committee Act, 5 U.S.C. App. 2; and (b) the implementing procedures of NAS, as applicable, including the

Conflicts of Interest Policy for Committees Used in the Development of Reports, and the Policy on Conflicts of Interest for Institutional Oversight and Non-Advisory Services, adopted by the NAS Council on May 12, 2003, and June 11, 2004, respectively, as may be amended or modified in the future.

14. NAS shall establish periodic reporting procedures for grant recipients, including a statement of project accomplishments and a report on grant expenditures until project completion, as well as a final report after project completion. Each final report shall address the original objectives of the project as identified in the approved proposal, describe any changes in objectives, and provide a final project accounting. The final report of project accomplishments described in this paragraph shall be available to the public.

15. NAS shall publish an annual report on studies, projects, and other activities funded or carried out by the Program during the preceding year. The annual reports shall be made available to the public and shall be disseminated in print and on the NAS Web site. Each annual report shall contain financial statements for the Program that are consistent with the audited financial statements of NAS, including a full and complete statement of income, expenditures, and investments. The report shall also include a list of each recipient of any grant funded by the Endowment, the amount of the grant, and a summary of the purpose of each grant made during the preceding year.

16. The Company, its officers, and its employees shall not be involved in any decisions regarding the selection of studies, projects, activities, or award recipients.

V. Management of Funds

17. NAS shall manage the Endowment in accordance with the policies established by the NAS Council, in accordance with the laws of the District of Columbia, including the Uniform Prudent Management of Institutional Funds Act of 2007, D.C. Code, Chapter 16A, as it may be amended from time to time, and any successor acts. NAS will invest the Endowment in a prudent manner for a 30-year fixed-term endowment whose entire principal and earnings will be expended within the 30-year period. NAS shall have the discretion to determine how to invest the funds in accordance with this standard of prudence, provided that at least half of all funds held in the Endowment shall be invested in United States Government securities, United States Government agency securities, and United States Government-backed securities.

18. Nothing about the list of three categories of studies, projects, and other activities in paragraph 6 is meant to imply a relative priority or a particular funding allocation. NAS

should strive to achieve a balance of studies, projects, and other activities that supports the Program's overall purpose and programmatic objectives.

19. All expenditures of Endowment funds by NAS for Program studies, projects, and other activities shall comply with OMB Circular A-122, 2 C.F.R. Part 230, as it may be revised from time to time, the NAS indirect-cost recovery rates established by the Office of Naval Research and any successor cognizant administrative contracting office, and the NAS disclosure statement on file with that Office (or an equivalent disclosure requirement).

20. The funds expended from the Endowment for studies, projects, and other activities shall be audited annually by independent accountants in accordance with U.S. generally accepted accounting principles.

21. NAS may at any time add to the Endowment using other sources of funding.

22. NAS may not use the Endowment to support any study, project, or other activity that would expend funds for a purpose for which Congress has prohibited funding.

23. If carrying out the Program's studies, projects, or other activities requires acquisition of real property, the property shall be located in the Gulf Coast region.

24. NAS shall not use any money from the Endowment for the purpose of lobbying, attempting to influence legislation, participating in a political campaign, or otherwise influencing the outcome of any public election.

VI. Access to and Dissemination of Research

25. The copyrights in all written materials, photographs, drawings, software, and other works subject to copyright protection created or generated under any grant made using the Endowment shall be owned by the recipient of the grant. NAS will encourage the publication and dissemination and other use of these materials. With respect to such copyrighted works, the United States Government and NAS shall have a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use such copyrighted works for Government or NAS purposes. In addition to any other rights it may have, the United States Government shall have the rights provided in paragraph .36(d) of OMB Circular A-110, as it may be revised from time to time, subject to the terms and conditions set forth in that Circular.

26. With respect to research data, which shall include the recorded factual material commonly accepted in the scientific community as necessary to validate research findings

(but not any preliminary analyses, drafts of scientific papers, plans for future research, peer reviews, or communications with colleagues), the researcher shall retain all rights in said data but shall provide timely and unrestricted access to the data to NAS and the United States Government. Without limitation of the foregoing, the United States Government and NAS shall have the right to (1) obtain, reproduce, publish, or otherwise use the research data first produced under any grant funded by the Endowment, and (2) authorize others to receive, reproduce, publish, or otherwise use such data for Government or NAS purposes.

27. The policies on patents outlined in 35 U.S.C. §§ 200-211, in 37 C.F.R. § 401, and in the Presidential Memorandum on Government Patent Policy dated February 18, 1983, will serve as basic guidance on patent rights so as to encourage the maximum participation in the Program by a diverse set of research entities. Grantees will have the right to elect title to the patent rights in inventions resulting from work under any grant, subject to the United States Government and NAS each acquiring a nonexclusive, nontransferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States or NAS, but in the case of NAS, solely in connection with the Program, the invention throughout the world in those inventions for which title is elected, and also subject to the “march-in-rights” of the United States Government as set forth in the above-cited statute and regulation. Without limitation of the foregoing, the license provided herein to NAS shall include the right of NAS to sublicense its rights to contractors and grantees that perform studies, projects, or other activities under the Program, except that NAS shall not have the right to commercialize its rights outside the Program.

VII. Modification

28. NAS shall conduct periodic reviews of the Endowment and Program at five-year intervals, to determine whether there is a continuing need for the Endowment and whether there is a need to modify the Agreement. Any modification of the Agreement will be subject to paragraph 29.

29. This Agreement may be modified only through application by NAS to the appropriate court in the District of Columbia pursuant to § 44-1635(b) or (c) of the Uniform Prudent Management of Institutional Funds Act, D.C. Code Ann. § 44-1635(b) or (c), as it may be amended from time to time, pursuant to comparable authority under a successor statute, or, in the absence of statutory authority, pursuant to principles of equitable deviation or *cy pres*. This Agreement cannot be modified in a manner that violates paragraph 1, 2, or 22.

VIII. Miscellaneous Provisions

30. NAS shall comply with all local, State, Federal, and international laws or requirements that apply in connection with the performance of any studies, projects, or other activities of the Program.

31. This Agreement shall not be construed to create any rights in, or grant any cause of action to, any person not a party to this Agreement.

32. This Agreement shall be interpreted according to the laws of the District of Columbia.

33. The provisions governing the Endowment and Program are severable. Should any portion of the Endowment or Program, or its studies, projects, or other activities, be declared illegal or inoperable, the remaining provisions shall remain in effect so long as there remain valid purposes and continued funding to carry out any study, project, or other activity within the scope of the Program.

34. This Agreement may be signed in counterparts, each of which shall be an original and all of which together shall constitute the same Agreement.

In addition, nothing in this Implementation Plan or the Remedial Order will be construed to prohibit or prevent the United States from developing, implementing and enforcing more stringent standards subsequent to the Effective Date of this Implementation Plan through rulemaking, the permit process or as otherwise authorized or required under federal laws and regulations. In addition, nothing contained in this Implementation Plan or the Remedial Order will be construed to prevent or limit the rights of the United States to seek or obtain other remedies or sanctions available under other federal, state, regional or local statutes or regulations, by virtue of BPXP's violation of the Implementation Plan or Remedial Order or of the statutes and regulations upon which the Implementation Plan and Remedial Order are based, or for BPXP's violations of any applicable provision of law. The Agreement shall not extend the term of probation.
4. BPXP's intellectual property rights to data and technology arising out of these pilot projects shall be made available to a third party or third parties under commercially reasonable terms and conditions, provided that such terms do not violate the intellectual property rights of other stakeholders, such as other industry or academic participants in pilot projects.

1. Within six (6) months of the Effective Date, BPXP shall schedule a meeting with BSEE to discuss the proposed pilot projects.
2. Within one year of the Effective Date, BPXP shall prepare and submit plans to BSEE for each of the proposed pilot projects ("Project Plan") for United States approval pursuant to Paragraph 32 of the Remedial Order and Section F above. Each Pilot Project Plan shall consist of:
 - a. Statement of performance goals;
 - b. Schedule for development, testing, and conducting the pilot project;
 - c. Estimated pilot project costs;
 - d. A schedule for developing testing protocols and evaluation procedures;

 - f. A schedule for developing economic evaluation procedures (third-party).
3. Following the conclusion of each pilot project, and no later than four (4) years and six (6) months following the Effective Date, BPXP shall submit to BSEE a Final Report on Pilot Performance for each pilot project. The Final Report on Pilot Performance must include: (a) the results of the feasibility testing; (b) the results of the economic evaluation; and (c) a detailed discussion of the incremental costs and benefits of the evaluated technology enhancements. Unless BPXP demonstrates that one (1) or more projects is technically unsound or that incremental benefits are insufficient to justify the incremental costs for these pilot projects, BPXP shall implement the technology enhancements at locations where such enhancements are applicable for BPXP's Deepwater Drilling Operations, in accordance with a reasonable schedule to be proposed by BPXP in the Final Report on Pilot Performance.
 4. In the event BPXP determines that the project is technically unsound, or that the incremental benefits are insufficient to justify the incremental costs, BPXP shall provide the basis for that determination, including the independent evaluation.
 5. BPXP shall include the following information for the prior calendar year in the BPXP Annual Report:
 - a. A description of the progress made on the pilot projects; and
 - b. If applicable, a description of the technology enhancements to be implemented.

1. BPXP shall advance to BSEE three (3) proposals for pilot projects in one (1) or more of the following categories: (a) enhancing functionality, intervention, testing and activation of BOP systems such as acoustics and subsea communications capabilities; (b) enhancing well design; or (c) enhancing real-time monitoring on rig and onshore.
2. The pilot project development process shall include procedures for independent feasibility tests and third party economic evaluation. Upon conclusion of the pilot project development and testing, BPXP shall implement at least two (2) of the pilot technologies unless the feasibility testing and economic evaluations, evaluated by an independent third party demonstrate that one (1) or more of the pilot projects is technically unsound or economically infeasible to implement.
3. Prior to the end of the Probation period, BPXP shall enter into an Administrative Agreement with BSEE, enforceable by BSEE order, for implementation of the new technology beyond five (5) years after the Effective Date to the extent that implementation shall extend beyond five (5) years after the Effective Date. The Agreement shall not extend the term of probation.
4. BPXP's intellectual property rights to data and technology arising out of these pilot projects shall be made available to a third party or third parties under commercially reasonable terms and conditions, provided that such terms do not violate the intellectual property rights of other stakeholders, such as other industry or academic participants in pilot projects.

The Final Report on Pilot Performance must include a detailed discussion of the incremental costs and benefits of the evaluated new technology. Unless BPXP demonstrates that one (1) or more projects is technically unsound or that the incremental benefits are insufficient to justify the incremental costs for these pilot projects, as demonstrated by the independent feasibility testing and economic evaluation, BPXP shall implement at least two (2) of the new technologies at locations where such technologies are applicable for BPXP's Deepwater Drilling Operations, in accordance with a reasonable schedule to be proposed by BPXP in the Final Reports on Pilot Performance.

PRIMARY GUARANTY

This Primary Guaranty (the “Guaranty”) is made the ___ day of _____, 2015 and effective as of the Effective Date (as defined in the Consent Decree) by BP Corporation North America Inc., an Indiana corporation (“Primary Guarantor”), in favor of the United States and the States of Alabama, Florida, Louisiana, Mississippi and Texas (collectively the “Beneficiaries”).

WHEREAS, the Beneficiaries, BP Exploration & Production Inc. (“BPXP”), the Primary Guarantor, and BP p.l.c., have entered into a Consent Decree with respect to claims arising from the Deepwater Horizon Incident, to which this Guaranty is attached (the “Consent Decree”);

WHEREAS, the Primary Guarantor is an indirect parent of BPXP; and;

WHEREAS, for the benefit of the Beneficiaries, the Primary Guarantor has agreed to provide this Guaranty pursuant to Section IX (Financial Assurance) of the Consent Decree;

NOW, THEREFORE, in consideration of good and valuable consideration to the Primary Guarantor, including the Consent Decree, the adequacy, receipt and sufficiency of which are hereby acknowledged, the Primary Guarantor hereby agrees as follows:

1. GUARANTY

- (a) The Primary Guarantor hereby irrevocably and unconditionally guaranties subject to the terms of this Guaranty, including without limitation the provisions of Section 6 of this Guaranty, that if (i) BPXP has failed to make a payment required under the Consent Decree (the “Guaranteed Obligations”) within 60 days after such payment has become due under the Consent Decree; or (ii) BPXP has filed for bankruptcy under the United States Bankruptcy Code or other applicable statute(s) or code(s) pertaining to insolvency; or (iii) any third-party has petitioned a court to place BPXP in bankruptcy under the United States Bankruptcy Code or other applicable statute(s) or code(s) pertaining to insolvency, an order for relief is entered, and any such filing or petition is not dismissed within 60 days of entry of such order for relief (any of (i), (ii) or (iii) immediately above, a “BPXP Default”), the Primary Guarantor shall, within 60 days, pay to the Beneficiaries the unpaid Guaranteed Obligations then due and payable by BPXP to the Beneficiaries in accordance with the payment terms of the Consent Decree.
- (b) The Primary Guarantor shall reimburse the Beneficiaries for all sums paid

to the Beneficiaries by BPXP with respect to such Guaranteed Obligations which the Beneficiaries are subsequently required to return to BPXP or a representative of BPXP's creditors as a result of BPXP's bankruptcy, insolvency, liquidation, or similar proceeding.

- (c) In respect of subsection 1(b), this Guaranty shall be a continuing guaranty of all of the Guaranteed Obligations and shall apply to and secure any ultimate balance due or remaining unpaid to the Beneficiaries; and this Guaranty shall not be considered as wholly or partially satisfied by the payment or liquidation at any time of any sum of money for the time being due or remaining unpaid to the Beneficiaries.
- (d) This Guaranty shall continue to be effective or be reinstated, as the case may be, if at any time any payment of any of the Guaranteed Obligations is rescinded or must otherwise be returned by the Beneficiaries on the insolvency, bankruptcy, or reorganization of BPXP or the Primary Guarantor or otherwise, all as though such payment had not been made.

The Primary Guarantor's obligations and liability under this Guaranty shall be limited to payment obligations only.

2. UNCONDITIONAL GUARANTY. Save due performance by BPXP or the Primary Guarantor, the liability of Primary Guarantor under this Guaranty shall not be limited, lessened or discharged by any of the following:

- (a) any incapacity or disability or lack or limitation of status or power of BPXP or that BPXP may not be a legal entity;
- (b) the bankruptcy or insolvency of BPXP; or
- (c) any law, regulation, or order now or hereafter in effect in any jurisdiction affecting any of the Guaranteed Obligations or the rights of the Beneficiaries with respect thereto.

The obligations of the Primary Guarantor hereunder are several and not joint with BPXP or any other person, and are primary obligations for which the Primary Guarantor is the principal obligor. There are no conditions precedent to the enforcement of this Guaranty, except as expressly contained herein or as set forth in the Consent Decree. It shall not be necessary for the Beneficiaries, in order to enforce payment by the Primary Guarantor under this Guaranty, to exhaust any of their remedies or recourse against BPXP, any other guarantor, or any other person liable for the payment and the Primary Guarantor's obligations hereunder shall apply regardless of whether recovery of all such Guaranteed Obligations may be discharged or uncollectible in any bankruptcy, insolvency or other proceeding, or otherwise unenforceable.

3. **WAIVER.** Except as set forth in the Consent Decree or this Guaranty, the Primary Guarantor hereby waives:

- (a) notice of acceptance of this Guaranty, notice of the creation or existence of any of the Guaranteed Obligations, and notice of any action by the Beneficiaries in reliance hereon or in connection herewith;
- (b) presentment, demand for payment, notice of dishonor or nonpayment, protest, and notice of protest or any other notice of any other kind with respect to the Guaranteed Obligations;
- (c) any requirement that suit be brought against, or any other action by the Beneficiaries be taken against, or any notice of default or other notice to be given to, or any demand be made on BPXP or any other person, or that any other action be taken or not taken as a condition to the Primary Guarantor's liability for the Guaranteed Obligations under this Guaranty or as a condition to the enforcement of this Guaranty against the Primary Guarantor; and
- (d) any other circumstance which might otherwise constitute a defense, set-off, or counterclaim available to, or a legal or equitable discharge of BPXP in respect of the Guaranteed Obligations or the Primary Guarantor in respect of this Guaranty.

4. **SUBROGATION.** The Primary Guarantor shall be subrogated to all rights of the Beneficiaries against BPXP in respect of any amounts paid by the Primary Guarantor pursuant to the Guaranty, provided that the Primary Guarantor waives any rights it may acquire by way of subrogation under this Guaranty, by any payment made hereunder or otherwise (including, without limitation, any statutory rights of subrogation under Section 509 of the Bankruptcy Code 11 U.S.C. § 509, or otherwise), reimbursement, exoneration, contribution, indemnification, or any right to participate in any claim or remedy of the Beneficiaries against BPXP or any collateral which the Beneficiaries now have or acquire, until all of the Guaranteed Obligations due the Beneficiaries shall have been irrevocably and indefeasibly paid to the Beneficiaries in full. If (a) the Primary Guarantor shall perform and shall make payment to the Beneficiaries of all or any part of the Guaranteed Obligations due such Beneficiaries, and (b) all such Guaranteed Obligations due the Beneficiaries shall have been indefeasibly paid in full, the Beneficiaries shall, at the Primary Guarantor's request, execute and deliver to the Primary Guarantor appropriate documents necessary to evidence the transfer by subrogation to the Primary Guarantor of any interest in such Guaranteed Obligations resulting from such payment of the Primary Guarantor.

5. **NOTICES.** Notice will be provided in accordance with the terms of Section XIX of the Consent Decree.

6. A VALID DEMAND, WHEN REQUIRED, AND PAYMENT.

- (a) With respect to any payments required pursuant to the following provisions of the Consent Decree: Section XI (Stipulated Penalties), Paragraph 21.a. as it applies to accelerated interest, Paragraph 30, and Paragraph 31, the Primary Guarantor is only liable to pay under this Guaranty in accordance with Section 1 hereof if the Primary Guarantor receives from the Beneficiaries a demand in writing that: (i) references the Guaranty, the Guaranteed Obligations due but unpaid to the Beneficiaries, and the existence and continuance of a BPXP Default; (ii) is signed by a duly authorized representative of the Beneficiaries; and (iii) is delivered to the Primary Guarantor. The Primary Guarantor shall pay, or cause to be paid, Guaranteed Obligations for which a demand is required within 60 days of receipt of such demand, unless, within such 60 day period, the BPXP Default giving rise to such demand has been paid in full or otherwise remedied by agreement of the Beneficiaries and BPXP.
- (b) With respect to all other payment obligations set forth in the Consent Decree, no demand shall be required under this Guaranty.

7. NO WAIVER; REMEDIES. No failure on the part of the Beneficiaries to exercise, and no delay in exercising, any right hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any right hereunder preclude any other or further exercise thereof or the exercise of any other right.

8. TERM; TERMINATION. This Guaranty shall not take effect until the Effective Date (as defined in the Consent Decree) of the Consent Decree. This Guaranty shall be and continue to be in full force and effect from the Effective Date until (the earlier of) (i) the date the Guaranteed Obligations to the Beneficiaries under the Consent Decree have been fully and indefeasibly paid, or (ii) the date the Consent Decree has been terminated or is held invalid or unenforceable by a court. This Guaranty shall terminate in full on the earlier date upon which any of conditions (i) or (ii) in the foregoing sentence has been satisfied.

9. ASSIGNMENT; SUCCESSORS AND ASSIGNS.

- (a) The Primary Guarantor payment obligations under this Guaranty shall be binding on any legal successor or assign of the Primary Guarantor in accordance with the requirements of Paragraph 7 of the Consent Decree.
- (b) No portion of this Guaranty shall provide any rights to, or be enforceable by, any person or entity other than the Beneficiaries and the Primary Guarantor, and no Beneficiary may assign or otherwise convey any right to enforce any provision of this Guaranty. Without limiting the foregoing, any assignment of any Beneficiary's rights of payment under the Consent Decree shall be with recourse

to such Beneficiary only and without recourse to the Primary Guarantor.

10. NO THIRD PARTY BENEFICIARIES. This Guaranty is for the exclusive benefit and convenience of the Primary Guarantor and the Beneficiaries. Nothing contained herein shall be construed as granting, vesting, creating, or conferring any right of action or any other right or benefit upon any other third party.

11. AMENDMENTS. No amendment or other modification of the terms of this Guaranty, including without limitation, those related to payment terms, shall be effective unless it is in writing, is signed by Primary Guarantor and the Beneficiaries, and states that it is expressly intended to give effect to the applicable amendment or modification hereto. No waiver of any provision of this Guaranty nor consent to any departure by the Primary Guarantor therefrom, including, without limitation, those related to payment terms, shall in any event be effective unless such waiver or consent shall refer to this Guaranty, be in writing and be signed by the all Beneficiaries. Any such waiver or consent shall be effective only in the specific instance and for the specific purpose for which it was given.

12. CAPTIONS. The captions in this Guaranty have been inserted for convenience only and shall be given no substantive meaning or significance whatsoever in construing the terms and provisions.

13. REPRESENTATIONS AND WARRANTIES. The Primary Guarantor represents and warrants as follows:

- (a) the Primary Guarantor is duly organized, validly existing, and in good standing under the laws of the State of Indiana;
- (b) the Primary Guarantor has full power and authority to execute, deliver, and perform its obligations under this Guaranty and no limitation on the powers of the Primary Guarantor will be exceeded as a result of entering into this Guaranty;
- (c) the execution, delivery, and performance of this Guaranty have been and remain duly authorized by all necessary corporate action and do not contravene the Primary Guarantor's constitutional documents; and
- (d) this Guaranty constitutes the legal, valid and binding obligation of the Primary Guarantor, enforceable against it by the Beneficiaries in accordance with its terms, subject to applicable law.

14. SEVERABILITY. Wherever possible, each provision of this Guaranty shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Guaranty shall be prohibited by or invalid under such law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Guaranty.

15. JURISDICTION. The Primary Guarantor and the Beneficiaries (other than the United States) each hereby irrevocably agree to the exclusive jurisdiction and venue of the United States District Court for the Eastern District of Louisiana in MDL 2179 (“the Court”). The United States hereby irrevocably agrees to the exclusive jurisdiction and venue in the United States District Court for the Eastern District of Louisiana in MDL 2179, except with respect to claims exceeding \$10,000 brought by BP p.l.c., BP Corporation North America Inc. or BPXP against the United States that are subject to the exclusive jurisdiction in the United States Court of Federal Claims under the Tucker Act (28 U.S.C. § 1491) or to the exclusive jurisdiction of any other federal court created by Congress for those purposes. The United States District Court for the Eastern District of Louisiana (and appellate courts thereof) are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with this Guaranty except those subject to the exclusive jurisdiction in the United States Court of Federal Claims under the Tucker Act or other court created by Congress for those purposes, as above. Further, upon termination of MDL 2179, any legal action or proceedings arising out of or in connection with this Guaranty shall be brought in the Court, and the Primary Guarantor and the Beneficiaries irrevocably submit to the exclusive jurisdiction and venue of the Court with respect to this Guaranty, except for those claims subject to the exclusive jurisdiction in the United States Court of Federal Claims under the Tucker Act, as above.

16. GOVERNING LAW. This Guaranty shall be governed by, and construed in accordance with, the laws of Texas, without regard or reference to the conflict of laws principles of any jurisdiction.

IN WITNESS WHEREOF, the Primary Guarantor has caused this Guaranty to be duly executed and delivered by its duly authorized officer on this 28 day of September, 2015 but shall be effective as the Effective Date (as defined in the Consent Decree).

WHEREAS, the Beneficiaries, on the one hand, and BP Exploration & Production Inc. ("BPXP"), a wholly-owned indirect subsidiary of the Secondary Guarantor, BP Corporation North America Inc. - (c) Any “**obligation**” of any Person under this Guaranty or any other document referenced herein is a reference to an obligation expressed to be assumed by that Person or imposed on that Person under this Guaranty or that other document, as the case may be.
- (d) A “**Person**” includes any individual, company, corporation, firm, partnership, joint venture, association, organization, trust, state or agency of a state.

- (e) A BPXP Default and/or a BPCNA Default is “**continuing**” if it has not been remedied.

2. **GUARANTY.**

2.1 Guaranty. As consideration for the Beneficiaries’ entry into the Consent Decree and subject to the terms of this Guaranty, including, without limitation, the occurrence and continuance of a BPXP Default and a BPCNA Default and the provisions of Section 4 hereof, the Secondary Guarantor hereby irrevocably, unconditionally, and absolutely guaranties for the benefit of the Beneficiaries, that if (i) there exists and is continuing a BPXP Default, and (ii) there exists and is continuing a BPCNA Default, the Secondary Guarantor shall, within 15 Business days of such BPCNA Default, pay to the Beneficiaries the unpaid Guaranteed Obligations then due and payable by BPXP to such Beneficiaries. Obligations under this Paragraph 2.1 shall have no effect unless both a BPXP Default and a BPCNA Default shall have occurred and are continuing, and in such instances this Guaranty remains irrevocable, unconditional, and absolute as described in this Guaranty. The Secondary Guarantor's obligations and liability under this Guaranty shall be limited to payment obligations only.

2.2 Secondary Guarantor as Principal Debtor. As between the Secondary Guarantor and the Beneficiaries, but without affecting BPXP’s obligations, the Secondary Guarantor shall be liable under this Guaranty as if it were the sole principal debtor and not merely a surety. Accordingly, except as otherwise provided in this Guaranty (including, without limitation, Paragraph 2.4), the liability of the Secondary Guarantor under this Guaranty shall not be released, affected or discharged by any act, matter, or omission which (but for this paragraph) would have released, affected, or discharged the liability of the Secondary Guarantor, including without limitation, any of the following:

- (a) any incapacity or disability or lack or limitation of status or power of BPXP or BPCNA or that BPXP or BPCNA may not be a legal entity;
- (b) the bankruptcy or insolvency of BPXP or BPCNA; or
- (c) any law, regulation or order now or hereafter in effect in any jurisdiction affecting any of the Guaranteed Obligations or the rights of the Beneficiaries with respect thereto.

2.3 Secondary Guarantor's Obligations Additional. This Guaranty shall be in addition to and not in substitution for any other rights, remedy, security or guaranties which the Beneficiaries may now or hereafter hold from or on account of the Guaranteed Obligations and subject to a BPXP Default and a BPCNA Default having occurred and being continuing, may be enforced without first

having recourse to such other rights, remedy, security or guaranties.

2.4 Secondary Guarantor's Obligations Continuing. The Secondary Guarantor's obligations under this Guaranty are and remain in full force and effect by way of continuing security until the earlier of the following:

- (a) all Guaranteed Obligations payable by BPXP to the Beneficiaries under the Consent Decree have been paid in full;
- (b) the date the Consent Decree has been terminated in accordance with its terms, or is held invalid or unenforceable by a court.

This Guaranty shall terminate in full on the earlier date upon which either of the conditions (a) or (b) of this Paragraph 2.4 has been satisfied with respect to the Guaranteed Obligations due to the Beneficiaries. Unless terminated pursuant to Paragraphs 2.4 (a) or (b), the Secondary Guarantor's obligations remain in effect in each case, notwithstanding absorption, amalgamation or any other changes in the Secondary Guarantor's constitution.

2.5 No Avoidance of Payment. If all or part of any payment received or recovered by the Beneficiaries in respect of the Guaranteed Obligations is, on the subsequent bankruptcy, insolvency, corporate reorganization or other similar event of BPXP, avoided or set aside under any laws relating to bankruptcy, insolvency, corporate reorganization or other such similar events, and the amount of such payment is required to be refunded to BPXP or other Persons entitled through BPXP, such payment shall not be considered as discharging or diminishing the liability of the Secondary Guarantor and this Guaranty shall continue to apply as if such amount had at all times remained owing by BPXP.

3. LIMITATION ON EXERCISE OF SECONDARY GUARANTOR'S RIGHTS.

Notwithstanding any payment or payments made by the Secondary Guarantor hereunder, so long as any Guaranteed Obligation remains outstanding:

- (a) the Secondary Guarantor hereby irrevocably waives any right of subrogation to the rights of the Beneficiaries against BPXP and any right to be reimbursed or indemnified by BPXP or by any other guarantor of all or any part of the Guaranteed Obligations until such time as all the Guaranteed Obligations due the Beneficiaries shall have been irrevocably and indefeasibly paid to the Beneficiaries in full; and
- (b) if, notwithstanding the foregoing, any amount is received or recovered by the Secondary Guarantor as a result of exercising such rights, such amount shall be held by the Secondary Guarantor in trust for the Beneficiaries and shall, forthwith upon receipt by the Secondary Guarantor, be paid to the

Beneficiaries, to be applied against the Guaranteed Obligations due to the Beneficiaries in such order as the United States, in consultation with the States of Alabama, Florida, Louisiana, Mississippi, and Florida, may determine.

4. A VALID DEMAND; WHEN REQUIRED UNDER THE GUARANTY.

4.1 When Secondary Guarantor's Liability is Subject to Valid Demand. With respect to any payments required pursuant to the following provisions of the Consent Decree: Section XI (Stipulated Penalties), Paragraph 21(a) as it applies to accelerated interest, Paragraph 30, and Paragraph 31, the Secondary Guarantor is only liable to pay under this Guaranty in accordance with Paragraph 2.1 if it receives from the Beneficiaries a demand in writing complying with this Section 4 (“Valid Demand; When Required Under the Guaranty”). With respect to all other payment obligations set forth in the Consent Decree, no demand shall be required under this Guaranty.

4.2 Valid Demand.

- (a) The Beneficiaries may only issue a Valid Demand to the Secondary Guarantor under this Guaranty at least 5 Business Days after it has sent a written demand to BXP and the Primary Guarantor for any payment described in Paragraph 4.1 requiring a Valid Demand stating the reasons for making such demand and identifying the Guaranteed Obligations due but unpaid to the Beneficiaries sending the Valid Demand in respect of which there has been a BXP Default and a BPCNA Default.
- (b) Any Valid Demand made of the Secondary Guarantor under this Guaranty shall be accompanied with a copy of a written notification referred to in Section 4, dated and sent to BXP and the Primary Guarantor no less than 5 Business Days before the date of the demand, and delivered or sent by post or facsimile to the Secondary Guarantor at its address as provided under Section 9.

5. NO IMPLIED WAIVERS. No failure on the part of the Beneficiaries to exercise, and no delay in exercising, any right hereunder shall operate as a waiver thereof; nor shall any single or partial exercise of any right hereunder preclude any other or further exercise thereof, or the exercise of any other right.

6. REPRESENTATIONS AND WARRANTIES. The Secondary Guarantor hereby represents and warrants to the Beneficiaries that:
